"Earthly Contacts Made in Offices . . ."

Dear Ann Landers: I'm getting pretty fed up with the letters you've been printing from wives who are suspicious of their husband's secretaries. I'll wager 80% of the wives who write are in the change of life and off their rockers. If they knew what most secretaries thought of their bosses they wouldn't be so concerned.

I've been a secretary for over 20 years. I've worked in four different offices and have become acquainted with dozens of secretaries. I don't know of one who has ever set her cap for her boss. Nor have I known of a single case where the boss made a pass.

An office is the most unromantic place in the world. Will you please spike this ridiculous canard for all time?
—HELEN

Dear Helen: Marriages may be made in heaven but a good many of the earthly contacts are made right down here in offices — unromantic places that they are.

Dear Ann Landers: I married last year when I was 19 and my husband was 20. I quit college because I became pregnant but he still has two years before graduation.

Two months ago we had a big argument over nothing important. I phoned my mother. She said to get on a plane and fly home — that it would teach him a lesson. I went home bag and baggage and my baby was born three weeks later.

My father is well off financially. I have a nurse for the baby and everything I want — except my husband. I miss him terribly but my folks won't let me call him. They say HE should call me. I have an idea that he may have tried but they wouldn't let me know about it.

Now they are urging me to divorce him. I don't want a divorce but I'm so mixed up I don't know what to do. My folks love the baby and say I will always have a wonderful home with them. Please give me some help.
—BLUE MOON

Dear Blue: Get on the next vehicle that's moving in the right direction and go back to your husband. Your baby needs a father more than you need a fur-lined existence for your parents.

And the next time you get into an argument with your
