# LEG of LAMB

# 59c

Minted Leg of Lamb  
Treat your family to a mint lamb delight. Prepare Leg of Lamb for roasting by cutting a slit and inserting 1 clove of garlic. Salt, pepper and paprika well. Add a pinch of ginger and rosemary. Roast in 350° oven, allowing 20 to 25 minutes per pound. Baste with Mint Sauce every 15 minutes or so, allowing drippings to mingle with lamb drippings. About an hour before serving, add peeled potatoes and 1 cup of water. Add 1/2 cup of mint sauce. Drippings become excellent gravy.

## Senate Gives Approval to Point Reyes

Creation of the first Pacific Coast National seashore — at Point Reyes, above the Golden Gate — has been approved by the U.S. Senate.

By a unanimous vote, the Senate passed the Engle-Kuchel bill authorizing development of a 53,000-acre reservation extending from Tomales Point to Bolinas Lagoon and embracing forested uplands, sandy beaches, rugged cliffs, and pastoral countryside as a unit of the National Park System.

The legislation contemplates early Federal acquisition of 23,000 acres, with the remaining area left in private ownership as long as present use, mostly dairying and cattle-raising, continues.

THE PLANNED project results from studies financed by an appropriation which Kuchel, senior United States Senator from California, obtained two years ago to permit National Park Service development of a concrete program and classification of lands considered worthy by preservation for the enjoyment of future generations.

"By this bill, which I hope can be enacted into law early next year at the latest, we will have established a third National seashore for the benefit of all Americans," Kuchel commented, "and will perpetuate for posterity scenic, recreational, historical, and geological attractions which are a definite National treasure."

"IN THIS WAY, Californians and visitors from all over the country will be able to derive pleasure and inspiration from a unique stretch of the Pacific seaboard which has been described as providing an unequalled combination of interests.

"The area was catalogued in a recent survey as one of the most desirable stretches of the entire Pacific Coast for preservation. With its fresh-water

## Circus Coming To Los Angeles

Thrills and chills galore await young and old when the Greatest Show On Earth brings its cavalcade of wonders to Los Angeles and air-conditioned Sports Arena on Sept. 20, and continuing through Oct. 1, with performances scheduled each afternoon and evening during the 12-day engagement of the big show. There will be three performances on Saturdays.

John Ringling North has brought many fine horses and equestrians to this country to feature in his circus, but this year the famous King Ranch of Texas takes the spotlight with the beautiful matched palminos. The King Ranch is world famous for the breeding home of fine horses.

Charles Moroski, chief horse trainer with the circus, declared that never before in the big show's history has so many highly trained horses been featured with liberty, and haute école, along with dressage style, taking the spotlight.

The horses and equestrians are only one of the many features that fill the three rings of this giant amusement institution. Elephants, tons of them, camels, caravan size, Royal Bengal tigers, from India, bears from the high mountain country of Germany, Shetland ponies from Scotland, are just a few of the many animals featured in this year's circus.

Ireland leads the world in the consumption of dairy foods, with 1,548 pounds per capita. The United States is in 15th place, with 666 pounds per capita.

lakes, lagoons and marshes, as well as timbered slopes, the seashore will remain a habitat for large varieties of interesting birds and mammals. It will afford unrivaled facilities for camping, hiking, picnicking, swimming, fishing, picture-taking, and other outdoor activities.

The legislation still must be approved by the House where a similar measure is pending in the Interior Committee.
