WATER AND THE COMMUNITY

Strange as it sounds, water is a product of chemical and mechanical progress. Every gallon of water you and your family use must be pumped, stored, cleared, purified, tested several times and delivered with unfailing regularity. All at a cost of less than 9c a ton!

Literally day and night, Dominguez Water Corporation specialists safeguard the absolute purity of every drop of water your family uses. Their responsibility does not end with that vital task. As a privately managed utility, Dominguez Water Corporation always pays its full share of city, county, state and federal taxes. You are never taxed a single penny to provide this service.

The management and personnel are happy to contribute their money and efforts to civic programs that help make this Dominguez-Carson-Torrance area a better place in which to live.
