

**DEDICATION CEREMONY . . .** City and civic officials from Torrance and other area cities gathered Friday morning for dedication of the new Southern California Automobile Club building on Sepulveda Boulevard just west of Crenshaw Boulevard. Among those attending were, left to right, Torrance City Councilman Nicholas O. Dralle; Norman P. Thompson, club executive vice president; and G. L. Fladland, manager of the local office. ## Civic Leaders Assist New Auto Club Opening

Civic leaders from Torrance, Redondo Beach, Hermosa Beach, Manhattan Beach, Waverly, Rolling Hills Estates, and Palos Verdes Estates joined with Automobile Club of Southern California officials on Friday to dedicate the club's new district office here at 2606 Sepulveda Blvd.

G. L. Fladland, district manager, officiated at the opening of the contemporary-style brick building which contains approximately 7,000 square feet of floor space. Adjoining the office is a parking lot large enough to handle the requirements of members and employees.

"Because of the rapid increase in population and club membership in the Torrance area, we outgrew the old office in Redondo Beach," Fladland said.

"The new facility, which is more centrally located, has been designated so that we can provide for efficient service to the more than 16,000 members our district serves," he said.

One new membership service to be made available to Torrance area residents is the world travel department, with complete travel agency facilities for domestic and foreign travel arrangements.

Part of a general program of construction recently undertaken by the auto club in major growth areas, the new Torrance office includes a general service area, small offices for conferences with club attorneys and claims adjusters, cashier's cage, clerical area, general sales area, employees' room, management area, and central control switchboard.

The building has been arranged to facilitate future construction to the west.

## Harvey Employees Reject Union

Employees of Harvey Aluminum Co. Friday rejected representation by the United Steelworkers of America by a vote of 1,119 to 595.

The election had been called by the National Labor Relations Board after complaints that the company interfered with a previous election. Friday's rejection of the union was the third by employees since 1959.

## ... Rezone

(Continued from Page 1) zoning for this property in conjunction with adjacent property.

HE APPARENTLY referred to development of the Standard Oil Co. property to the west, reportedly in the process of transfer to the Hugh Utah Construction Co. report of such a sale was carried exclusively in the HERALD on Oct. 8.

If a definite decision on zoning of this property is made, he probably would be interested in continuing plans for developing the area, Wilson said.

Petitions asking for a referendum on the City Council's action in rezoning the property had been challenged on the basis that they had been materially altered after they were filed. Withdrawal of this challenge clears the way for certification of the petitions, city hall sources said.

The City Council will then be called on to rescind its action or place the issue on April's municipal ballot, the HERALD was told.
