

TARTAR TEEN TALK

by Frances Adams

Monday was D-Day for the juniors . . . Dues Day, that is. The Junior Class Council launched its dues drive on Monday. The dues are \$3 and enable the purchaser to a bid for the Junior-Senior Prom in May.

The day before the Banning Jamboree, Bareford, with a time of 9:22, hit the tape first, and Dennis Dyer, seventh, with 9:47.

CROWDING THE Varsity runners are Jim Masaki and Harold Jeffers from the JV team, who came in first and second, respectively, at Lennox with times of 9:47 and 9:48. In the meet against Palos Verdes, Jeffers, Craig Crossman, and Tom Greene finished in the top 10.

Either Masaki or Jeffers is expected to win a spot on the Varsity squad before the end of the season.

Sparked by a record of good wins, the Torrance Cross Country team is out to take the league finals Nov. 17 at Cheviot Hills.

Coach Joseph Sarthou said that Aviation is going to be the hardest team there.

Tartar runners swept the first four places when the team met Lennox at Centinela Park on Oct. 20, with Tony Bareford setting a new record for the course with a time of 8:23. Placing second, third and fourth, respectively, were Dennis Dyer, Bob Henderson, and Ivor Sampson.

FRIDAY. Oct. 13, was far from an unlucky day for THS when the Varsity, JVs, and Novices took the meet from Beverly Hills High.

Aeronca Names New Executive

Appointment of Joseph T. Beal as corporate representative for the Western regional office of Aeronca Manufacturing has been announced here by Dean N. Ninteman, regional manager.

Beal, with Aeronca since 1951, will represent Aeronca in the 11 Western states from offices in the Torrance plant at 24751 S. Crenshaw.

AT SIGNAL CENTER . . . Pvt. Larry R. Dotson, 18, son of Mrs. Betty L. House, 5110 Carmelynn St., recently completed the 11-man's course at the Army Signal Training Center, Fort Gordon, Ga. He was trained to install and maintain aerial communications wires and cables. He attended North High and was employed by the Harbor Belt Line Railroad in Wilmington before entering the Army.

WHAT'S DOING

Those tents you occasionally see on telephone lines may have set you wondering what sort of mysterious operation was going on inside. Actually, it's no mystery. The tents are simply protection against rain, wind, or hot sun for phone men splicing cables together.

It's one "undercover job" that helps assure the dependability of your phone service, since tents like this allow us to make cable repairs in

just about any kind of weather.

Do you know how the telephone company helps bring you network TV?

From a studio, a network television program is sent first to a telephone company TV-control center like the one shown at right. From here, the television picture speeds along a network of special telephone circuits to stations in other cities for broadcasting to homes. At check points across the land, the program is carefully watched on monitoring screens. Highly trained telephone men check constantly so you'll get the best possible picture on your television set.

In this way telephone people help bring you television from the entertainment capitals of the nation.

HOLIDAY AHEAD

Thanksgiving, a holiday of great religious and family significance, is upon us again.

The idea of rendering personal appreciation for the unique privileges we enjoy dates back to the days of Early America.

In most localities, it has come to be associated with crisp fall weather, heavily laden tables, and festive family reunions.

We at Pacific Telephone will be observing the holiday, Thursday, Nov. 23, with millions of others.

We also will be giving our particular personal thanks for the small part each of us is able to play in providing "reunions" for thousands of families over our wires which span the nation.
