Beatitudes Feature of Lesson-Topic

The comforting and assuring message of the Beatitudes will be featured at all Christian Science church services Sunday. Jesus' promise of abundant blessings to those who manifest God-like qualities — those who are meek, who hunger and thirst after righteousness, who are merciful, pure in heart, peacemakers — continues with his words, "Rejoice, and be exceeding glad: for great is your reward in heaven."

The subject of the lesson-sermon "God the Preserver of Man" is keynoted in the Golden Text from Numbers (6:24-26), "The Lord bless thee, and keep thee: The Lord make his face shine upon thee, and be gracious unto thee: the Lord lift up his countenance upon thee, and give thee peace."

"Divine Love always has met and always will meet every human need," affirms Mary Baker Eddy, the discoverer and founder of Christian Science in the concluding passage from "Science and Health with Key to the Scriptures." Again she says, "It is not well to imagine that Jesus demonstrated the divine power to heal only for a select number or for a limited period of time, since to all mankind and in every hour, divine Love supplies all good."

New Juice On Market

A new treat for babies, strained apple-cherry juice with added vitamin C is being introduced by Gerber Products Co.

This new combination of pure juices offers mothers a convenient and flavorful alternate source of the important daily vitamin C requirements of this important vitamin.

The pasteurized juice is finely strained so it will flow easily through bottle nipples. Older babies may sip it from a cup.

Strained Apple-Cherry Juice comes in the regular 4½ oz. can and is priced the same as the other five Gerber juices.

A vignette of the two fruits appears on the new Gerber simplified label which makes it easier for shoppers to select baby food varieties.

Doctors Meet To Discuss Medical Study

Dr. Irvin S. Pilger, of Harbor General Hospital, participated Thursday and Friday in a two-day conference in Philadelphia on the problem of continuing education in the basic medical sciences in the country's community hospitals.

This was the third annual conference on graduate medical education, sponsored by the University of Pennsylvania Graduate School of Medicine.

Nearly 250 delegates attended from hospital staffs, medical schools, government health agencies, and university centers throughout the United States. In workshops and discussion centers, participants explored means of providing physicians in the community hospital with the opportunity
