"I think the boss has met his match."

**Students Collecting Books for Philippines**

Harbor College students last week began collecting books and school supplies to be sent to schools in the Philippine Islands. The collecting campaign is headed by Pat Ngoho student from the Philippines now attending Harbor. It was initiated by John Glover, another Harbor student from San Pedro, whose grandmother, Mrs. John W. DeLong, told him about the great need for school supplies after visiting the islands recently. The books will be transported to Manila on Navy ships. They will go to Oton High School and Santa Barbara High School on Luzon and to a school for Igorot natives. The most needed items are books on the grammar and high school levels, readers, paper, pencils, and other school supplies. To meet shipping dead-

lines the students wish to conclude the drive by Jan. 20. Any person in the Harbor area with books they would like to contribute to the drive can leave them at Room 504 in the student center, or may phone John Glover at TE 1-4961 and the books will be picked up.

Jack F. Webb, son of Mrs. Doris Hayton, 805 Kornblum Ave., recently was promoted to private first class in Germany where he is a member of the 37th Engineer Group. Webb, a combat construction specialist in Company C of the group's 299th Battalion in Hochst, entered the Army in March 1961, completed basic training at Fort Ord, and arrived overseas the following August. The 19-year-old soldier attended Torrance High School.

**WHAT'S DOING**  
R. S. Pyle, your Telephone Manager in Torrance

Telephone Service Representative  
Jobs Available

As you have probably guessed, ours is a service business and women just seem to have the knack. I know many of you have talked to the young women about service and billing problems. This is the service rep. She must be able to talk interestingly to the general public, but particularly to our friends in Torrance. But women are women, and even our most efficient top salaried gals have a way of leaving to become wives, mothers, and girl scout leaders. As a consequence, we are always on the look out for personable young ladies to handle communication problems. If this sounds like your type of work, come in and see us, we're eager to meet you.

I've seen a number of articles lately on how to improve one's reading speed. Now that's something our Information operators are very interested in. So they can give you quick, accurate information, they've taken company Rapid Reading courses, use special indexes and cross references. Three years ago, the average time spent on a request for a telephone number was thirteen seconds longer than it is today. Learning to cut down the time it takes to give you the information you want has also made the job easier for our operators. This is another important way we have found to help give you better telephone service.

Unusual uses for telephone books. One of the telephone companies received an order from a South American fruit company for 800 telephone books—Yellow Pages and all. Turned out they were to bullet-proof a truck against bandits! It figures—when you need help, you'll find it fast in the Yellow Pages!
