

Banquet Slated For Isen

Plans are currently being formulated to honor Torrance Mayor Albert Isen at the Jump 'n Jack restaurant, 8 p.m. Wednesday, March 7, according to Richard Floyd and Joseph Piatt, co-chairmen for the event.

In making the announcement, the co-chairmen stated that the fete is to be an appreciation dinner to commemorate Isen's "seven years of dedicated service" as mayor of Torrance.

The date, March 7, marks the anniversary of the City Council's appointment of Isen as mayor in 1955.

Serving as "appointed Mayor" until 1958 and since as the first Mayor of Torrance to be elected directly by the people, Isen has gained national recognition of Torrance as a good place in which to live and as an industrial center in which to work, sponsors of the program said.

Program arrangements now being finalized are expected to cite many of these achievements.

Chemistry Instructor On TV Show

James Campbell, El Camino College chemistry instructor, is currently appearing in a new science program, "Guidepost to Understanding Science."

In a series, which made its debut recently, Campbell presents 17 shows with Arthur Schecter, an instructor at Pasadena City College.

The half-hour shows will be viewed three times weekly, Tuesday and Thursday at 8:30 a.m. on Channel 13 (KCOP), and Saturday at 8:30 a.m. on Channel 5 (KTLA).

THE PROGRAM is produced under the auspices of the audio-visual division of the Office of the Los Angeles County Superintendent of Schools.

The "Understanding Science" series will review the basic chemical and physical concepts necessary for an understanding of modern biological principles.

This part of the series will include such programs as "The Nature of Chemical Relations" and "Molecules in Motion: Diffusion."

LATER, the series will use these concepts to discuss such biological principles as photosynthesis, and energy utilization, cellular, plant and animal respiration.

Campbell, an instructor at El Camino College for five years, received his master of science degree at the University of Southern California and his bachelor of science degree at the University of Illinois.

HE HAS TAUGHT in high school and was a research chemist and insulation engineer in industry for six years. Schecter received both his MS and BS degrees in biological science at USC.

Both are active members of the California Science Teachers Assn.

Republican Club Plans Anniversary

Second anniversary meeting of the Torrance Republican Club has been scheduled for 8 p.m. Tuesday at the Fish Shanty in WALTERIA, President Tom Brewer announced yesterday.

On the agenda for the evening will be an election of officers and a short educational program, Brewer said. Members of the nominating committee include Chairman John Grutzik, Ann Prindeville, John G. L. Crain, and Joseph Maxim.

Cutting Torrance into three Assembly Districts and two Congressional Districts means "no single Congressman or Assemblyman feels obligated to represent the city of Torrance," Brewer said.

A course of action has been planned by the Torrance Republican Club and "new members are welcome to take part," he added.
