

# New Members Sought For Centurion Club

The newly formed Centurion Club is presently extending membership invitations to local community and business leaders of the southwest area. Named for the centurion captains of the Roman army, the club is dedicated to community leadership and service.

"We are looking for prominent citizens interested in joining us in a long-range program for responsible community activity," explained E. J. Champion, Redondo Beach realtor and chairman of the Centurion Club.

"JUST AS THE Roman centurion was the leader of a hundred soldiers on the field of battle, the Centurion Club hopes to find hundreds of civic-minded members to lead in the field of community service."

The original 51 members of the club have chosen to assist the Pediatrics Department of Little Company of Mary Hospital as one of their initial projects.

"A CONDITION of 125 per cent occupancy exists at the hospital in this department. What was once a solarium is now another ward," Champion stated. "The problem of overcrowded hospital facilities for our children must be solved; the Centurion Club intends to solve it."

Through this and other projects, the Centurion Club will direct its efforts to assist the Little Company of Mary Hospital. Additional information about the Centurion Club is available from Champion.

### How tomorrow's Picture-Phone may look

By turning a knob you could show off a new baby in California to relatives and friends all over the country. Or have a time-saving "phone view" of goods you want before going to the store. Long distance conferences could be held face-to-face by men of business, science and government. This may all be possible someday with Picture-Phones. They're among many exciting ideas telephone people are working on to make your service more useful and to help the nation keep its scientific leadership in a fast-changing world.
