State College President Urges Approval for 1-A

Editor, Torrance Herald

Since coming to this area to initiate the planning of the new South Bay State College, I am particularly pleased with the coverage in your paper concerning the prog-ress of this new institution. The College Staff believes that your paper has afforded the readers an excellent opportunity to keep abreast with the latest progress and development of South Bay State College.

I feel that it is of great significance that the State of California is establishing a new four year and graduate college in the South Bay area. This is one of the heavily populated regions of the State which does not have such a State-supported institution to provide for the thousands of graduates from the many high schools.

The Planning Staff of the College has been particularly impressed with the reception they have received from your

El Camino To Host Speech Squads Scholarships

El Camino College will play host to some five college and university speech squads for a practice tournament Friday practice tournament Friday night and Saturday. Approximately 300 students

will participate in debate, or-atory and oral interpretation at the two-day event.

"All people in the commu-nity who are interested in speech are invited to attend," ECC Speech Coach Jerry Bor-

den said.

Invitations to 24 high schools have been sent. Due to the similarity between the high school and college debate topics, the students will act as observers.

HEADQUARTERS for the tournament will be in Room 1 of the Campus Center. Registration on Friday is from 1 to 2:45 p.m. Saturday's competition begins at 8:30 a.m. and the same of the control of the contr awards will be made in the Campus Theater at approxi-

Students in competition may enter any or all of the three events. Brief oral critiques are given after each round by the judge. There are two rounds each in oratory and oral interpretation and four rounds of debate.

"That the non-Communist nations of the world should establish an economic commu-nity" is the 1962-63 college de-

DEBATE TEAMS, composed of two, three, or four speakers, give four 10-minute construc-tive speeches and four 5-min-ute rebuttals.

Oral interpretations must be selections from at least two authors and built around a central theme. There is a maximum time limit of eight min-

Selections for oratory must be essentially persuasive in na-ture. They must be the orig-inal work of the student, and must not have been delivered in competition prior to Sep-tember of 1962. There is a 10-

community in their discussions and the interest displayed for educational facilities for higher education. We are planning to bring to the area an institution which will serve the needs of a wide variety of students and which will offer high quality educations.

variety of students and which will offer high quality education in both the liberal arts and in the professions.

The time schedule for the College will be directly affected by the vote registered for Proposition 1-A on Nov. 6. It is essential, if we are to open South Bay State College as soon as possible, that the voters approve Proposition 1-A. This is a \$270,000,000 State bond issue, 80 per cent State bond issue, 80 per cent of which will be devoted to the construction of facilities for the University of Califor-nia, the State Colleges, and Junior Colleges. Of the \$62,000,000 to be spent in Los Angels County, \$7,700,000 is specifically allotted to the South Bay State College. The passage of this bond issue is also of direct con-cern to parents whose chil-dren are about to become candidates for admission to for the University of Califor

candidates for admission to college. It is estimated that some 18,000 qualified stu-

For Fashion Careers Set

High school seniors with an eye toward a career in fashion are eligible to apply for the national Seventeen Tobe-Co-

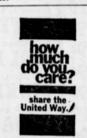

national Seventeen Tooe-Co-burn Scholarship Award.

The annual scholarship of-fers two-year tuition at the nationally known Tobe-Coburn fashion school in New York City, plus \$1,000 a year toward living expenses, to the girl living expenses, to the girl selected by Seventeen Maga-zine's panel of judges. Tobe-Coburn school trains

young girls for careers in re-tail buying, fashion coordina-tion, advertising, fashion pho-

tography, publicity, and fashion editing.

Any girl who will complete her high school course by Sept. 1, 1963, is eligible to compete for the award. Entry blanks which must be submitblanks, which must be submit ted for judging by Dec. 26, are available in the Hi-Deb Depart-ment at the Broadway Del

Spending Future Income Must Have Logical Limit

By JAMES DORAIS
The theory behind the practice of financing construction of public buildings, schools, dams, etc., by bond issues is that the children of the generation of adults that incur the indebtedness will benefit by the projects after they are built and therefore should

tion of additional facilities is

Higher education has a di-

rect effect on the economy of California in that it pro-

duces the technical and pro-fessional manpower required by business, industry and the

professions. It is highly im-

not started immediately.

share in their cost.

This is a reasonably defensible theory, but an element of doubt enters when the repayment schedule is spread over such a long period of future years that grandchil-dren are expected to pick up a part of the tab.

But when bond financing

portant that we maintain our leadership among the states and keep California in first gets to the point where the present adult generation be-gins mortgaging the distant LEO F. CAIN President

future of its great-grandchildren, the whole proceeding rather takes on the aspect of a monstrous fraud.

Precisely this state of af-fairs will be reached if the recommendations of the Regional Advisory Council of the Bonneville Project Ad-ministration are adopted with ministration are adopted with respect to refinancing the huge indebtedness of that sprawling Columbia River public power complex. Since the early 1930's 20 public power dams have been authorized in the Bonneville Project Administration sys-tom. Whose Federal appropris-

tem. When Federal appropriations were made for each of the dams, pay-back periods of up to 50 years were established. The law under

which the system operates requires the fixing of power rates to meet these pay-back

For the past five years, the Bonneville system has oper-ated at a deficit. It has been expected that rates would have to be substantially raised to comply with the law. This dismal prospect,

to the secretary of the in-terior that all of the projects in the Bonneville system be lumped together and the payout for the whole system be

course, is anathema to the public power bureaucrats, and they have come up with

an inspired proposal to cir-cumvent it.

It has now been proposed

tial operation in 1969. This would extend the pay-off pe-riod for all dams, including those built 30 years ago, to the year 2019.

If adopted, the scheme would result in a reduction of as much as \$7.5 million a year in annual repayment charges to the U. S. Treas-

figured from the date of the newest dam in the system which is scheduled for ini
