

If Wide-Track is as hot as Pontiac says, why don't they put it in their Tempest?

They just did.

We can take a hint. When people are as happy with something as Pontiac owners are with Wide-Track, we're willing—may, anger—to let everybody else in on it. That's why Tempest has a Wide-Track of its own this year. It's why you get to choose between a lively 4 and a 326-cu. in. V-8, too. We aim to please—and if we do say so, we're pretty accurate. *Optional at extra cost.

Now there are two kinds of Wide-Track cars . . . Pontiac and Tempest

Basic Data Processing To Be Offered

A class in the basic principles of data processing will be offered in the Evening Division during the spring semester at Harbor College.

The course, which meets from 6:30 to 9:30 on Thursday evenings starting the week of Feb. 4, will investigate basic data processing equipment and application. It will feature discussions of automated record keeping, basic computer concepts, and the application of computers to management problems. The course will include visits to data processing installations.

THE INSTRUCTOR of the course, Frank Fishbaugh, holds a bachelor's degree from the University of Southern California and has had many years of experience with industry in the field of data processing.

He is presently employed as an operational auditor specializing in data processing control with Space and Information Systems Division of North American Aviation. Fishbaugh is a member of the Systems and Procedures Assn., the National Assn. of Accountants, and the Institute of Internal Auditors.

APPLICATIONS for admission to the spring semester are being accepted now at the Admissions Office of the college. All persons planning to attend the spring semester at the college must apply before the Jan. 25 deadline.

"More than 5,000 electronic computers are in operation today," explained Marinella, and our forecasters tell us that five years from now there will be from 10,000 to 15,000 at work in the United States alone. It behooves everyone in the field of business to inform himself of the impact and application of data processing equipment."

Did You Hear ?

One of the earliest known hearing aids was a large sea shell with a tube to the ear.

The NEW MAICO hearing aids are much smaller, more comfortable and provide better hearing.

Call for a free hearing test & trial demonstration.
