NOTICE OF FILING APPLICATION FOR INCREASES AND DECREASES OF INTRASTATE TELEPHONE RATES

The Pacific Telephone and Telegraph Company on August 30, 1963, filed with the Public Utilities Commission of the State of California an application, numbered 45728 for specific rate increase authority supplementing Applicant's showing in Case No. 7409, to increase and decrease certain Intrastate rates and charges applicable to telephone service furnished within the State of California. In general terms, the proposed increases and decreases are as follows:
Reduction in installation charges on color sets from $10 to $5 and in charges for secretarial lines from $3.75 to $3.
For exchanges located outside the San Francisco-East Bay, Los Angeles and San Diego extended areas, increases and decreases in basic rates resulting from the application of a graduated scale of rates based on the size of exchange. On the average there is an increase of about $2.50 per month per main business telephone and $1 per month per main residence telephone.
In the San Francisco-East Bay, Los Angeles and San Diego extended areas there are changes in basic rates. Increases of $.35 per month apply to each main business telephone, except semi-public telephones, and each main residence telephone increases $.13. Present coin semi-public combination monthly rate and daily guarantee replaced with a fixed monthly rate at about present message business levels. Allowance for two party message rate service reduced from 60 to 40 message units. In the San Francisco-East Bay and Los Angeles extended areas 8-party line service is eliminated; also sizeable reductions in suburban mileage charges for 1, 2 and 4 party services are included.
Changes in service connection and move and change charges for busines, increased from $10 to $15, for residence increased from $7 to $10, and telephone change charges increased from $4 to $5.
Introduction of a more accurate method of measuring air line miles called "Vertical-Horizontal Measurement Plan". This results in some increases and some decreases for multiple message units and for message toll telephone service over certain routes.
Private line teletypewriter machine rates increased to interstate rate levels.
Some PBX and miscellaneous equipment rates are also increased. These increases are proposed to become effective, upon grant of authority therefor by the Public Utilities Commission, in the State of California and in various counties and municipal corporations therein, including the County (Counties) of Los Angeles and the City (Cities) of Torrance. The State of California and the counties and municipal corporations which may be interested in the application may obtain a copy thereof from the Applicant upon request directed to:
E. S. Bowers,
Assistant Vice President,
The Pacific Telephone and Telegraph Company,
140 New Montgomery Street,
San Francisco, California 94105.
A copy of the application may be inspected by any interested person in the office of The Pacific Telephone and Telegraph Company at

and in the offices of the Public Utilities Commission of the State of California, Fifth Floor, State Building, Civic Center, San Francisco, California, and State Building, 107 South Broadway, Los Angeles, California.
