

Sav-On Opens Newest Store In San Pedro

Opening of the 35th Sav-On Drug store in Southern California was hailed last week with a ribbon cutting at the newest store at 950 N. Western Ave., San Pedro, in the Park Western Shopping Center.

On hand for the celebration were Ronald L. Call, president of Sav-On Drugs, Inc.; Ira D. Brown, vice president; Don M. Alder, secretary-treasurer, and R. L. Call and Jay Patterson, store supervisors.

The ribbon cutting launched a four-day celebration in all Sav-On Drug stores.

WARREN G. HOOPES is the manager of the new store. He has been employed by the firm since 1946 with the exception of a four-year tour of duty as a captain with the U. S. Air Force during the Korean War.

Assistant manager is Gary C. Nield, a Sav-On employee since 1957. Roy E. Keith is heading up the pharmacy department, transferring from the Gardena store to the new San Pedro location.

Sav-On opened its first store in San Bernardino in 1945, and since its founding by Christian J. Call, the firm has grown to a position of eminence in the field. It now employs more than 3,500 persons.

"WHILE we are sincerely proud of our reputation for low prices," President Ronald L. Call said, "we are even more pleased that this reputation has been based on presenting only merchandise of top quality."

Among the pioneers in developing drug stores as junior department stores, the Sav-On chain will carry on its tradition at the new San Pedro store.

A comprehensive housewares department is included in the store as well as departments for small appliances, hardware items, tools, electrical supplies, and other items.

ALSO available will be a complete line of school supplies and stationery, greeting cards, and basic clothing for infants, boys, and girls.

Other departments include a complete photographic display, cosmetics, hosiery, and costume jewelry.

The large pharmacy department includes a fully stocked prescription service to be handled by pharmacists whose sole function in the store will be to offer meticulously compounded medical supplies.

Harvey Gives University Aid

A grant of \$1,700 from Harvey Aluminum, Inc., of Torrance for industrial research at the University of Wisconsin has been accepted by the University's Board of Regents.

The grant is for the support of a project in the Department of Biochemistry. The project is to study the clinical aspects of experimental fluorine toxicosis.

4 Math Courses Offered

Four courses in mathematics will be offered teachers and engineers in the Hawthorne High School, 4859 W. El Segundo Blvd. in Hawthorne.

"Linear Algebra," taught by Earl N. Ford of Northrop Corporation, will meet Mondays beginning Sept. 16, from 7 through 9:30 p.m.

"Advanced Engineering Mathematics," and "Mathematics Review (Calculus)" will both begin at 7 p.m. Tuesday, Sept. 17. Ronald L. Duty of Aerospace Corporation will teach the first course, and Herbert D. Cohen of Space Technology Laboratories will teach the latter.

For those who have had the first half, the second part of "Advanced Engineering Mathematics," will begin Sept. 18. Vernon F. Lowenberg of North American Aviation will instruct.

Further information about these courses may be obtained from Extension offices on the UCLA campus, Los Angeles 24.
