"Do Not Agree Woman Is Cultured"

Dear Ann Landers: A friend of mine has an irritating habit. If you say her behavior is acceptable I will try to overlook it. Please reply in the paper because I know of others who wonder about this person, too.

She is forever turning over the china to see if it is the genuine stuff. She examines silver the same way. I've seen her fingering the table linen and my draperies to determine the quality of fabric. Most people can look at a picture and enjoy it but not her. She has to touch it to see if it's really done in oil.

I will admit the woman is cultured, refined and knowledgeable but this habit of hers raises my blood pressure. Will you please comment?—PLAIN FOLKS

Dear Folks: I do not agree that the woman is cultured and refined. Cultured and refined people do not examine articles for hallmarks nor do they handle fabrics to test the quality while visiting in the homes of friends. And I don't agree that she is knowledgeable. If the woman knew her stuff she wouldn't have to touch and scrutinize everything. She'd know.

Dear Ann Landers: Our seven-year-old son has been taking odds and ends from the homes of neighbors and friends. Sometimes he takes objects from the nearby novelty store or the drug store. He doesn't need, or even want, many of the items he takes. He just enjoys carrying things off without being caught. When he brings the stolen objects home he proudly presents them to me.

I have scolded him repeatedly and explained that it is wrong to steal. I always insist that he take each object back and leave it somewhere on the premises. After he has returned everything he tells me, and I then forgive him.

His father learned of this yesterday. Strangely enough the boy blurted out, "Let's tell daddy our secret." My husband was shocked and then furious. He says something must be done but we don't know what. It was his idea to write to you. Can you help?—TROUBLED HOUSE

Dear Troubled: Without meaning to, you have encouraged the boy's stealing by making a game of it. He doesn't see anything wrong with sneaking things OUT so long as he is able to sneak them back in.

You must tell him that if he takes anything else he will (Continued on Page 14)
