GRAND OPENING TODAY . . . The League Boys Shop in Rolling Hills Plaza at Crenshaw Boulevard and Pacific Coast Highway is observing its grand opening today. The shop features casual and dress clothes from sizes 6 to 20. Owner Manny Garcia also owns a boys' shop in Manhattan Beach. Tony Corso is serving as manager of the new local store. (Herald Photo)

GET IN STRIDE GO CLASSIFIED

If a man answers -

**DON'T
HANG
UP!**

When you dial for a telephone operator, if a male voice answers, don't be surprised. And don't hang up. You may be talking to a member of our managerial staff.

We have offered a fair and reasonable settlement to the labor union with which we have been negotiating for more than four months. Our offers have been rejected, and they have called a strike against General Telephone.

We shall, however, continue to provide our customers with the best service possible. During this emergency, in addition to their regular duties, our management personnel will take their turns at the switchboards, clearing trouble, installing phones, and doing the many other jobs that are necessary to keep a telephone company going. Even though they may not be as proficient as our regular service personnel, they are desirous and determined to continue good telephone service for our customers. We ask that you understand the situation and bear with us.

In our months of negotiations for a new contract with the union, we have been guided by our responsibility and obligations to (1) provide a high quality of service at a reasonable cost to our customers; (2) pay a fair return on the money which our shareowners have invested; (3) provide good working conditions for our employees, and fair compensation for the work they perform; and (4) continue to provide good telephone service without the necessity of seeking an increase in telephone rates.

It is our earnest hope that the union soon will recognize its responsibility to our customers and shareowners, as well as to our employees, and accept the fair offer we have made in settlement of its demands.

**Science Shrinks Piles
New Way Without Surgery
Stops Itch—Relieves Pain**

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months! In fact, results were so thorough that sufferers were able to make such astonishing statements as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in *suppository* or *ointment* form called *Preparation H*®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.
