To bull or not to bull-that is the question that is being debated by broadcasters and the Humane So-

The controversy arose as a result of a recent telecast of a bullfight on a network hookup .There are also several bullfight series currently showing on inde pendent stations across the country.

The American Humane Society is up in arms and hell hath no fury like a pet lover, so the sparks are certain to fly. Its president, Charles W. Friedrichs, called the situation shocking and barbarous.

"We can see no justification for bringing the detailed cruelty into American homes, thus circumventing every state in the union which bars bullfighting."

The anti-bull people have taken their argument to the National Association of Broadcasters, the outfit which self-governs the television industry and therefore has been an authority on the subject for many years—though in a slightly different context.

It is a fact that the NAB recently has relaxed the section of its code which calls for humane treatment of animals, although the organization cannot be called pro-bull except in the matter of commercials. Robert D. Sewezey, NAB's code director, made this reply to the anti-bull faction:

"We are persuaded that our TV public should not be denied the opportunity to witness bullfighting, its mechanics and techniques in its natural setting. The viewer should be able to make his own appraisal of bullfighting as a spectacle in other countries. But it is scarcely the function of the Code Authority to determine peremptorily that bullfighting is a barbaric and shocking pastime which should be barred from public view."

At the present time, the NAB code allows the showing of single bullfighting episodes, either dramatic or documentary, "which give a reasonably true picture of the techniques of this activity and the climate in which it takes place."

The pro-bull faction argues that some other countries accept the corrida as part of their national culture. This makes the anti-bull folks hit the fan.

"Headshrinking and cannibalism and other unusual tribal rites are also accepted practices in some countries and are reflections of unique cultures, but they are not acceptable for American TV!" said the anti-bull spokesman Friedrichs. "Mixed bathing in the nude as in Japan, electrocutions, and the slaughter of animals are not acceptable for TV, either."

Almost every minute of the television day, humans may be seen knifing, slugging, and chasing each other around the dial with intent to murder, mutilate, maim and rape. I guess the bulls are lucky to have an organization behind them.

This season the heroes are marching upon us by four.

It all began with the four men on the Ponderosa Ranch in "Bonanza." The show was successful. Then along came "The Virginian" with another set of four male heroes. If it worked for "Bonanza" and "The Virginians" why shouldn't it work with "The Dakotas"? So four more actors were joined together in the holy bounds of Hollywood.

All season the producers of "Empire" felt that two men and two women weren't quite the right combination for success on television.

So guess what they did? Right? They clobbered the ladies and added two more men. Now "Empire" is exclusively a male quartet operation.

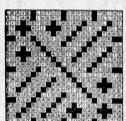

One assumes that Westerns must be, by tradition, all boy and a yard wide—but this is very tough on girl stars in Hollywood and disconcerting for the men in the viewing audience. Aha! Here the audience researchers have the figures to prove that the women in the audience like to watch the men. And what about the men viewers? Psychologists say that in shows of this sort the men like to watch the men.

If the trend continues Ozzie is going to drop Harriet; "Leave It to the Girls" will become "Leave It to the Boys;" those two women on "The Nurses" will be replaced by four interns (which might not be a bad idea, at that); and the Purex Special for Women will become a man's show with baldness replacing change in life as the problem of the day.

Already ahead in the race for male supremacy "The Three Stooges;" "McHale's Navy;" "My Three Sons;" "The Gallant Men;" "Car 54 Where Are You?": "Stoney Burke;" "Wide Country;" "Dr. Kildare;"
"Checkmate;" "Laramie;" "The Untouchables;" "Eleventh Hour;" "Naked City;" "Outlaws;" and "Route 66;"-none of which have any women in the regular

In preparing for the Presidential visit, Frank had purchased two lots adjoining his own Palm Springs home, built two guest houses on one of them and installed a tennis court on the other. It was then decided that it would create "a better Presidential image" if JFK and his entourage stayed at Bing entourage stayed at Bing tell him not to marry that noCrosby's place instead, since the Sinatra guestbook of previous visitors included some not-too-dignified names. Dear Mrs. Hersh: You are too modest. Your letter shows as much mastery of the language as most of us have — and the sentence I'm writing right now proves it! The toughest part of writing, I've always found, is rolling that paper into the typewriter and starting. Falling that, you might call Fred Fell, the man who published "I'll Cry Tomorrow" for Lillian Roth, Gerold Frank and myself, and he may have a suggestion. Fell Publications is in the Manhattan phone book.
