Summer School Program Sets Attendance Record

More than 12,200 students in the elementary schools and figure which determines what per cent of the high school

More than 12,200 students attended summer school on the first day of the Torrance summer session. The record enrollment means that 50 per cent of the teachers are employed during the summer. Enrollment figures for the first day showed 8,656 students in the elementary schools and 3,586 in the high schools. A doubt teachers are on duty for the six weeks session.

SINCE the summer program must pay for itself, teacher employment is determined by the average daily attendance, a figure which determines what amount the state pays the school district. The number of than the summer of 1962.

Dr. Robert C. Morton, assistant superintendent for personnel, said that 95 per cent of the high school district. The number of than the summer of 1962.

of new research discoveries, new findings on cardiacs' work potential and the many serv-ices available to local residents.

"THIS DESIRE for know-ledge shows that more people are becoming aware of the heart problem and, therefore, will help the Heart Assn. in its work to save lives, relieve suf-fering and start programs of fering and start programs of prevention of heart disease," said Joseph M. Oyster, M. D., outgoing president of the association.

Some other needs suggested were: finding a way to combat harmful food fads, accelerated hospital programs for rehabili-tation of stroke victims, ex-panding fund-raising activities to acquire more money for new programs and encouraging participation of various profes-sional groups to help combat heart disease.

ELECTED president of the association at the annual meet-ing luncheon which followed the morning conference was John L. Denney, M. D., of San Marino, assistant medical di-rector of the Los Angeles County General Hospital.

Guest speaker at the luncheon was John D. Brundage, chairman of the American Heart Assn. board of directors. He told of the awakening of American businessmen to the need of supporting the Heart Assn.'s work to keep workers on the job with healthy hearts
