You'll know something special is happening the first time your youngster turns, wide-eyed, from the wonderful cartoon creatures and their hilarious an-tics to the words that tell the story. Word by word, phrase by phrase, he will follow the print. Excite-ment grows and grows until the secret can be kept no longer. "Mommy I Daddy ! Come and listen. I can read it myself." And so the great adventure begins, moving from page to page, book to book — until the words that were once hard to read become easy— understanding comes more quickly—and vocabulary grows by leaps and bounds. All because he has discovered reading is fun, when he can do it himself.

Wild and wonder-fun.

An odd young bird hatches out of his ear and into a series of feather-raising adventures. At the brink of disaster, fate smiles (and your tot will laugh as our here is rescued by a sorting ateam shove). All this in funny pictures and a vocabulary of 100 simple words!

The importance of the BEGINNING READERS' PROGRAM goes far beyond the glorious illustrations and fascinating stories. Each book makes reading more fun, and easier than ever, because it is written in 50 to 275 basic words your child has already learned, or can quickly pick up. All are written and illustrated by gifted writers and artists who know where a child's heart is. There's a story on whales, the tale of a city boy who becomes a cowboy, a little girl who flew an airplane ... even a trip to the

airplane . . . even a trip to the moon. No wonder TV and comic books soon step aside!

BEGINNER BOOKS are duraby designed to live with a small child. Printed in at least three bright colors and in large readable type, they're just long enough for a child's attention span. As a member, your child will receive a

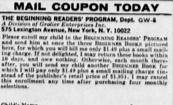

BEGINNER BOOK every month and you will be billed only \$1.49 plus a small mailing charge, in-stead of the publisher's retail price of \$1.95. After four selections, you may cancel any time.

### **Our Introductory Trial Offer**

We invite you to prove the benefits of the BEGINNING READERS' PROGRAM by ac-cepting the three books shown here - a \$5.85 value at the publisher's retail price - for \$1.40. Even this small investment in your child's reading and school progress carries no risk.

carries no risk. Ten days' trial must convince you that the program will stimulate his appetite for reading, or you may return the three introductory books and owe nothing. If we prove our point, have you ever seen a greater bargain? Fill out and return the coupon now, to
