

'He Began His Dirty Work . . .'

Dear Ann Landers: The man I loved and trusted and invested three whole years in took his ring back and broke our engagement last night. The trouble was started by

Kenny's best friend whom I never liked. This friend re-sented me from the begin-ning because after I came into the picture Kenny didn't pal around with him "like old times." At first this friend tried to horn in and make it a threesome, but when I a threesome, but when I wouldn't tolerate it, he began

his dirty work. A few days ago he told Kenny a vicious lie about me. When I tried to explain to When I tried to explain to Kenny that there was no truth in the story he said, "I'm sorry, but one of you is lying and I think it is you." Please tell me how I can get Kenny back. I am heart-sick, Ann. This is all so un-fair.—BLUE BLUE NIGHTS Dear Blue, You need Kenny Tair.—BLUE BLUE NIGHTS Dear Blue: You need Kenny like a giraffe needs a strep throat. A guy who would have so little confidence in his girl is not worth worrying

Dear Ann Landers: I am writing about the 14-year-old neighbor girl who baked the birthday cake for the man next door and gave him a big birthday kiss in front of everybody. You seemed to think it was thet dueky and in fact you

You seemed to think it was just ducky, and in fact you made his wife sound like a jealous old witch. I would like to acquaint you with the facts of life, Ann Landers. Fourteen-year-old girls aren't what they used to be. Our daughter is 14 years old and could pass for 18 any day. If I ever caught her kiss-ing the man next door

ing the man next door whether it was his birthday of the 4th of July, I'd give give r forher a crack she'd never

her a crack she'd never for-get. Our son is 15 and he'd better not kiss the neighbor-lady either. When my sister's husband ran off with their 15-year-old babysitter two years ago I changed all my notions about changed all my notions about how old kids are before they get ideas. I think it's time YOU woke up and smelled (Continued on Page 10)

(Editor's Note: Mr. and Mrs Sam Thomsen (Judy Wolf of Torrance) and in-fant daughter, Katy, arrived in Saigon, Viet Nam, in April. Mr. Thomscn is on a two year as-signment with the State Department. The following is a Christmas letter from the Thomsens, to Mrs. Thomsen's parents, Mr. and Mrs. Don Wolf, describing the eventful year of 1963 in Saigon) Dear Mom and Dad:

The holidays have come upon us much faster than we expected and since so much has happened to us this past year, we decided upon this expedient way of reporting on the excitement of our lives in Saigon. We felt this was we have received so many considerate inquiries from friends and relatives about

Triends and relatives about our well being. Our arrival at the end of April immediately preceded the beginning of six of the most eventful months in the history of independent Viet-Nam. Since the news coverage of the events has been age of the events has been quite complete, we won't re-peat all the details. Suffice it to say that the Buddhist inci-dent in. Hue on May 8th built up to the declaration of mar-tial law on August 20th and led almost inexitable to the led almost inevitably to the coup on November 1st.

The great tragedy of the events is that the govern-ment, by doing almost any-thing other than what it did, could have saved itself almost up to the day of the coup. The Buddhist situation was not a great problem even

easily disposed of the prob-lem. In early July when Diem publicly broadcasted a plea for reconciliation and unity, the Buddhists had almost lost their issue; public interest was almost non-existent. It was the government's raids on pagodas, August 20th, that brought the public (that is, the students, intellectuals and much of the military) togeth-er against the Diem Regime. The arrests of students, im-

mediately following, brought Diem to his last mile as lead-er of this country. From then on rumors of coup were heard everywhere, attempts to con-vince Diem of the need for moderation and compromise went unheeded. Diem had, himself, made all of the ac-cusations against him and his government come true.

On the 2nd of November Saigon was jubilant, Students, soldiers and housewives were in the streets. Soldiers were bedecked with flowers and plied with fruits and sweets. The relief and joy were ob-viously widely and deeply felt. The new government has an immense task to win the war and establish a govern-ment that is responsive to the ment that is responsive to the people's desires and respon-sible for their security. It has, however, more chance of suc-ceeding than had the government recently deceased.

The night of the coup is one that we look back on with mixed emotions. We can smile now but it was at the time a frightening experi-ence; particularly for Judy as Sam spent the night at the Embassy because the shelling

hope that he was safe. The shelling became increasingly loud during the early morn-ing hours and for someone who had spent most of her life in the sheltered confines of the U.S., the fighting sounded much nearer than it was However the thing was. However, the thing which caused the greatest concern was the "rockets" that were continually flying over the house. Much to the novice's embarrassment, she later discovered that these were only tracer bullets and that she and Katy had not needed to spend the night in the closet.

Generally speaking, we have found Saigon extremely civilized and though we must boil our water and avoid lettuce, we have had few health they, we have had rew health problems. (The most frequent one being colds caused from air-conditioning.) Katy has thrived in the tropics. She is now 11 months old, the poses-sor of four shiny teeth and a were attractive member of the very attractive member of the wery attractive memoer of the walking race. She keeps two servants and two parents busy keeping her out of drawers and doors. However, she is usually a very popular member of the household and the other of our home movies the star of our home movies. She resembles any number of people, depending on which side of the family you're listening to.

We have only just recently moved into permanent quar-ters. Our new home is lovely, spacious and well furnished. We have a large yard which is being used increasingly as the rains let up. As mentioned, we have two servants, a cook and his

After three months of additional language training, Sam began work in the Political Section as a provisional reporter. Provisional reporting is a function unique to Viet-Nam. Sam and two other offi-cers spend their time in provwithin their respective inces areas of responsibility. Sam has 10 provinces immediately east, north and west of Sai-

gon; three of them are among the most critical in the coun-try. His job, in a sense, is to become the government ex-pert on his area. In each pro-vince there are American military advisors and an economic development advisor, who are far more deeply inwho are far more deeply in-volved in the day to day events in their provinces than Sam could ever be. Sam's job is to see from a bird's eye view how they are progress-ing in terms of overall goals and in comparison with other provinces. It is a challenging job, offering much freedom of action and judgment. We have spent a very husy
