Bringing Up Baby.

SHIRTS COLLECTED BY MRS. DOR GERBER, MOTHER OF 8

Once baby passes the mid-year mark, each day sees new skills acquired. While ball-of-fire babies are apt to do things a bit faster than take-it-easy babies, most babies do these things at about these ages:

- 6 to 7 months. Eyes and hands co-ordinate. Hands hold securely, explore eagerly—eyes examine intently. Sitting up starts, rolling over is easy now.
- 8 to 9 months. Creeping comes into its own. Cup feeding usually handled reasonably well. Can switch objects from hand to hand.
- 12 months. Walking and talking may get real touts now. Simple instructions can be understood. Simple games like "pat-a-cake" are easily managed.

P.S. Whether your baby follows the above pattern or not doesn't matter. When mind and spirit are ready, he'll do everything.

Toothsome treat with built-in nutrition and fun. Gerber Animal-Shaped Cookies for toddlers have twice as much protein as most other cookies, plus B-vitamins in the icing. Crunchy to munch, fun to look at and figure out animal names. (With your help, of course.)

Helping hand division. The baby who is encouraged to try things within his capabilities will reward you with a good progress report. The baby who is urged beyond his limits may lose his desire to try.

Vegetable review. Many different vegetables help build good food habits at an age when food acceptances are most easily established. Gerber offers wonderful vegetable variety with 9 strained and 6 junior choices. All are famous for garden-true colors and flavors. All are specially processed to preserve the utmost in precious food values. Gerber® Baby Foods. Box 72, Fremont, Michigan.
