

Local Delegates Attend Voter League Conference

"The State's role in regulating the sales and rental of real property" was the prime issue of the third biennial council of the League of Women Voters of California at a three-day "working" conference at Asilomar, near Monterey.

Attending were Mrs. C. R. Berwanger of the Torrance League and Mrs. Yoshimar Shibuya of Palos Verdes Peninsula League.

Council delegates, which included 67 voting delegates representing more than 12,000 California league members from Eureka to Chula Vista convening with the state board of directors, voted overwhelmingly in favor of the proposed study on sales and rental of real property.

The subject will involve detailed background information on the Constitutional guarantees, laws and executive orders which exist. Pros and cons of the initiative

measure relating to this subject, which will appear on the November ballot, will also be given emphasis.

Attention was focused on league interest in the current California legislative session. Delegates affirmed their support of ballot measures abolishing the School Land Fund and limiting veterans' exemptions to California residents, and their opposition to further extension of property tax exemption to veterans' widows.

Mrs. George Spitzer, state voters service chairman, announced publication of the new League of Women Voters nonpartisan publication, "It's Your Party," a factual picture of California's political party structure and the importance of the volunteer worker.

League pros and cons on more than two dozen ballot measures will be ready for California voters prior to the November election, the council was informed.

NOW... GREAT NEW ENCO EXTRA!

PUT A TIGER IN YOUR TANK!

New Power-formula Enco Extra gasoline boosts power three ways... preserves the power of new engines... restores lost power to many older engines:
1. Cleaning Power! Dirt can clog even a new carburetor in a few months of normal operation—causing hard starting and rough idling. Your very first tankful of New Enco Extra will start to clear away these deposits to improve power and mileage.
2. Firing Power! Spark plug and cylinder deposits can cause misfiring, pre-igni-

tion and hot spots. New Enco Extra neutralizes these harmful deposits to help your engine fire smoothly and efficiently.
3. Octane Power! Octane requirements for new cars are up again this year. New Enco Extra has the high octane that most cars now need for full performance, smooth acceleration and passing power without knocking.
You'll get something extra for your money with New Power-formula Enco Extra—it's like putting a tiger in your tank!
Happy Motoring!
