**Ann Landers**

(Continued from Page 27) at least one mature person so why don't you be the one? Try this:

The next time the mailman brings a letter from Tim walk straight to the kitchen and start to bake a batch of cookies. Ask your husband to please bring Tim's letter to you when he has finished with it. Turn on the kitchen radio, hum, sing, beat away at the cookie batter — keep busy until the letter comes in. You'll enjoy it more when your blood pressure is normal.

Dear Ann Landers: Two weeks ago a friend fixed me up with a blind date. The man (whom I will call Jud) was attractive, a fine conversationalist and has had marital troubles similar to mine. I enjoyed his company but I must confess he consumed more alcohol than any person I have ever gone out with.

He didn't appear to be drunk, but he downed at least a dozen drinks between 8:30 P.M. and midnight. When it came time to go home I was actually afraid to get into the car with him. (I was in a bad accident three years ago and am lucky to be alive.) He sensed my concern and said, "Relax. I've never had an accident in my life."

Jud called me last Saturday but I was busy. If he calls again should I accept? I've checked with people who know him well and they all say he drinks like a fish—ALICE.

Dear Alice: If he drinks like a fish, swim with him—don't drive with him.

Too many starchy-eyed lovers do not know the difference. Do you? Send for ANY LANDERS' booklet, "Before You Marry—Is It Love or Sex?" enclosing your request 20c in coin and a long, self-addressed, stamped envelope. Ann Landers will be glad to help you with your problems. Send them to her in care of this newspaper enclosing a stamped, self-addressed envelope. Copyright 1964, Publishers Newspaper Syndicate

**Staverts Move**

Now—a cigarette that's low in tar and nicotine, high in menthol flavor!

**Just enough in every puff**

makes every puff a pleasure!

ANALYSES OF THE SMOKE OF SAMPLES OF MONTCLAIR CIGARETTES ARE MADE PERIODICALLY BY AN INDEPENDENT RESEARCH LABORATORY. ANALYSES DURING THE MOST RECENT TEST PERIOD PRIOR TO THE MANUFACTURE OF THE CIGARETTES IN THIS PACKAGE AVERAGED:

"TAR" 5.2 MG	PER CIGARETTE
NICOTINE 0.5 MG	PER CIGARETTE

\*SMOKE COMPONENTS COMMONLY BUT INACCURATELY CALLED "TAR"

How much is "just enough" in a menthol cigarette? "Just enough" menthol to please your taste. Montclair's new charcoal-menthol filter does it. Charcoal granules-activated and mentholated-release just enough menthol to freshen every puff. So every puff tastes as good as the first puff.

What's so modern about Montclair? You'll find the answer in Montclair's modern menthol flavor. Yet Montclair is surprisingly low in tar and nicotine. So low, in fact, that test results are printed on the package. But the flavor's still there when you smoke Montclair.

Smoke Montclair—just enough in every puff makes every puff a pleasure!
