

# Tips for Securing Home Against Burglars Announced by Sheriff

Burglary Prevention Week is not intended to be facetious nor an indication that peace officers are interested in preventing burglaries one week in the year.

That was the summary of Sheriff Peter J. Pitchess as he urged Southland citizens to consider the seriousness of burglary as a crime and how the observance of some simple rules might cut down the burglary toll during vacation months ahead.

"Few people realize burglaries account for 44 per cent of the total major crimes in the country. They occur at a much greater frequency than any other crime — one every 35 seconds, day and night, throughout the year," the officer said.

DURING 1963 there was an estimated 900,000 burglaries committed across the coun-

try. The total dollar loss of these burglaries was approximately \$200,000,000.

Big business? "Yes," Sheriff Pitchess said. "But alerting the public to the menace and suggesting to them some of the simple precautions to take can substantially reduce this menace in our community."

HERE ARE SOME suggestions the Sheriff's office recommends you take before leaving your homes during the warm month ahead.

- Use good locks. Don't rely on cheap door locks to protect your home and valuables. Pin tumbler cylinder locks or locks with a dead-bolt mechanism are most effective.

- Have one or two lamps burning during the evening hours. This can easily be done by using an automatic timer on lamps or making arrangements with a neighbor to turn them

on and off each evening. Lights burning all night or day and night fool no one.

- Be sure to discontinue deliveries during your absence. A call to the dairy is safer than a note left for the milkman. The post office will hold your mail, too. Have your newspaper forwarded to your vacation spot.

- Tell one neighbor you are leaving, ask him if he'll look

after things for you in your absence, — sweeping up, cutting the lawn, picking up circulars, etc.

- Use safety latches on all windows. They'll allow the windows to be opened far enough for proper ventilation, but not enough for someone to enter.

- Notify your police department when you're leaving, where you can be reached in

an emergency and when you expect to return.

An informed public cooperating wholeheartedly with

their local law enforcement agencies, can successfully put Mr. Burglar, "out of business" in our town.

## Science Shrinks Piles New Way Without Surgery Stops Itch—Relieves Pain

New York, N. Y. (Special) — For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids, stop itching, and relieve pain — without surgery.

In one hemorrhoid case after another, "very striking improvement" was reported and verified by a doctor's observations. Pain was relieved promptly. And, while gently relieving pain, actual reduction or retraction (shrinking) took place.

And most amazing of all — this improvement was maintained in cases where a doctor's observations were continued over a period of many months! In fact, results were so thorough that sufferers were able to make such astonishing state-

ments as "Piles have ceased to be a problem!" And among these sufferers were a very wide variety of hemorrhoid conditions, some of 10 to 20 years' standing.

All this, without the use of narcotics, anesthetics or astringents of any kind. The secret is a new healing substance (Bio-Dyne®) — the discovery of a world-famous research institution. Already, Bio-Dyne is in wide use for healing injured tissue on all parts of the body.

This new healing substance is offered in suppository or ointment form called Preparation H®. Ask for individually sealed convenient Preparation H Suppositories or Preparation H Ointment with special applicator. Preparation H is sold at all drug counters.
