Mustang leads the stampede the big Ford started. This has been the hottest sales year in Ford Division history. We have a winner in the Super Torque Ford, a car so well built, so predictably tough, that competition-modified Fords took eleven of the last twelve NASCAR 500-mile races. Ford sales are up 17% this year. We have a luxury car that's taken off like a skyrocket: Thunderbird, with sales up 66%. Falcon is selling almost as many cars as Valiant and Chevy II combined. Fairlane continues to be a favorite in its own field. Now comes Mustang . . . turning the trend to Ford into a downright stampede. Mustang, by any measure of sales or excitement, is the most successful new car ever introduced in America—ever. When you see a stampede, it makes sense to find out what started it. That's something only your Ford Dealer can tell you about.
