How much is "just enough" in a menthol cigarette? "Just enough" menthol to please your taste. Montclair's new charcoal-menthol filter does it. Charcoal granules—activated and mentholated—release just enough menthol to freshen every puff. So every puff tastes as good as the first puff.

What's so modern about Montclair? You'll find the answer in Montclair's modern menthol flavor. Yet Montclair is surprisingly low in tar and nicotine. So low, in fact, that test results are printed on the package. But the flavor's still there when you smoke Montclair.

Smoke Montclair—just enough in every puff makes every puff a pleasure!
