Planning to build, or remodel? Be sure to see the "Telephone Planned" homes at the Los Angeles Home Show, open from June 11 thru June 21, at the Los Angeles Sports Arena. You'll find lots of ideas you may wish to incorporate into your own plans to make living easier and more fun.

Another exhibit you won't want to miss is the Telephone Exhibit which has the latest in Communications equipment. Be sure to see them all at the Los Angeles Home Show at the Los Angeles Sports Arena, opening June 11th.

Did you know the word telephone comes from the Greek "tele" meaning far off, and "phone" meaning voice?

Bazaars are the fantastic "supermarkets" of the Middle East. There, amid the crowds and the cries of shopkeepers, you can find everything imaginable—and some things that aren't. But, did you know there's an even wider selection of goods and services right in the Yellow Pages of your own phone book? Next time, why not check

them out before you shop. The Yellow Pages is one bazaar you can go through without leaving the comfort of your easy chair.

Telephone people recently installed the "hottest" communications system anywhere. They put armor plate around phone equipment at the Pacific Missile Range to keep it from burning up during rocket blast-off. Because the phone serves every operation important to countdown, its protection is vital to launchings.

WHAT TO DO TO GET HELP IN AN EMERGENCY

If you don't have a list of emergency numbers handy, dial "0" for Operator. She's trained to handle these situations and she has all the numbers of vital services at her fingertips. Try to give her as much information as you can, including the number you're calling from and the nature and location of the emergency. It's good to know your telephone operator is always there, ready to help.
