YOUR PROBLEMS

by Ann Landers

'So Tell Your Wife Ix-nay...'

Dear Ann Landers: My wife has been bugging me for the last year to let her dye my hair black. Marge used to be a beautician. According to her I'd look at least 10 years younger which would help me in business because the younger men get the promotions. I'm 46 and don't mind the gray in my hair at all. Furthermore, I'd be awfully self-conscious about suddenly turning up with coal black hair because all the people I work with know my hair has been gray for years.

You are a pretty sensible dame and I'd like to hear your opinion. A yes or a no from you could have a lot of influence on me.—SILVER THREADS.

Dear Threads: Some men dye for dear old youth's sake and only their barbers know for sure. Speaking strictly for myself, I like gray in a man's hair.

It's obvious that you'd feel self-conscious turning up all of a sudden with coal black hair, so tell your wife ix-nay.

Dear Readers: Do you recall the letter several days ago from the woman who complained vehemently because her husband's ex-wife sent him several pairs of shorts and undershirts for Christmas?

The gal blew her top and insisted that her husband return the shorts and undershirts because it was far too intimate a gift under the circumstances.

I told the wife to forget it—that it was not worth fighting about for six months, and that although the gift may not have been in the best taste, it was certainly practical.

I'd like you to know, folks, that nearly 4,000 readers from coast to coast, plus Alaska, Honolulu, and Puerto Rico wrote to say they did NOT agree with me. My position remains unchanged, but it may please you to know that I am a lonely minority.

Dear Ann Landers: I am 14 and feel that life is just about over. If there was a Foreign Legion for girls I'd join up.

Three weeks ago the dentist took the braces off my teeth. I wore them for almost four years. You can't imagine how I dreamed of the day when those horrible
