

Safety Council Issues Warning About Fireworks

A warning to all Torrance area residents to use care and caution in handling fireworks this weekend was issued today by Mrs. Eva Bisou, chairman of the Torrance Safety Council.

"Every year, numerous persons receive burns or are injured as the result of not being careful in shooting off fireworks," she warned.

"Many parents allow very young children to light the fireworks and if not properly supervised can only lead to a serious accident," she said.

MRS. BISOU pointed out that fireworks sold in Torrance is considered safe, but only if used properly and with caution.

The importance of proper

supervision was stressed by the Safety Council chairman. Even a sparkler, if not held properly, can cause a serious or painful burn, she pointed out.

A list of safety tips has been drawn up by the Safety Council in an effort to keep Independence Day next Saturday a "safe and sane holiday."

- AS PARENTS, supervise the shooting off of the fireworks.
- When shooting off fireworks, keep in an area where sparks will not set off combustible materials such as in a field with dry weeds and grass.
- Keep at a safe distance from the display.
- Don't tamper with articles or redesign them. Use as manufactured and directed.
- Don't allow excitement among children to lead to horseplay or running.

THE TORRANCE Safety Council reported that most accidents are the result of human error or disregard of safety rules — not defects in the fireworks.

"The caution you use today could prevent you from spending days or weeks recovering from a serious burn," Mrs. Bisou said.
