

New Street Light Plan In Progress

Registered letters have been sent to property owners along Sartori and El Prado avenues outlining a plan to install 18 modern octagonal design Marbell poles with lumina mercury vapor lights in the Torrance business district.

Costs to each property owner, and Torrance where city property is under the present plan will be on a front footage basis of \$2.10 a foot. Total cost will be \$5,035.19.

The area affected by this plan is Sartori avenue between Torrance Blvd. and Cabrillo and El Prado between Cravens and Sartori avenues.

Old poles have to be replaced by new taller type poles as the new proposed lights require poles taller than the present ones.

The whole project will be discarded if full cooperation is not obtained and one merchant declines to go along with the plan said the spokesman for the Retail Merchants Division of the Chamber of Commerce.

City Manager George Stevens assured the committee that the City will install these new poles free of cost to the property owners, thus making a substantial saving on this portion of the work.

New Building Supply Firm Recently Opened

New firm recently opened in Torrance by three local men, Jack Phillips, Bill Croak and Doug "Dutch" Horlander is the Paramount Builders Supply Company, located on the old Texas Company property on Torrance Blvd. and Madrona Avenue.

In step with the sudden growth of the West Torrance area, Paramount Builders carry all articles necessary for the home, such as lumber, paints, electrical supplies, plumbing, etc.

All three have been with Stone and Webster Construction Company for the past 14 years.

St. Andrews Aux. To Hold Meeting

After a busy summer of picnics and parties, the Woman's Auxiliary of St. Andrews' church will hold their first fall business meeting Sept. 7.

Plans will be made for future activities at this meeting.
