Mrs. Russell Joins Percy & Vaughn Realty

Mrs. Theresa Russell, well known in Torrance since the beginning of her residence here in 1936, recently joined the staff of Percy and Vaughn, realtors, as real estate agent.

A licensed real estate agent, Mrs. Russell has had 18 years of experience in selling and has worked for a realty firm in Los Angeles recently.

Mrs. Russell, who resides at 1319 Crenshaw boulevard, has a five-year-old son, Forrest Dean, now attending Torrance Elementary School and a daughter, Dolores Jensen, 17, employed at the Torrance office of the Pacific Telegraph and Telephone Company. Dolores graduated from Torrance High School with the June, 1950 class.

Her other children are Mrs. Mildred Douglas, Torrance and Mrs. Maxine Evans, residing in North Carolina, two step-sons, Sgt. Gordon Thomas, recently returned from Korea and winner of the Bronze medal, the purple heart, and other decorations; and Kenneth Russell, employed at National Supply Company here.

The Choice of Clothes

My nine-year-old daughter has very definite ideas about the clothes she wants to wear. Should I make an issue The Effect of Movies of this or let her choose what she is to wear-even though it would mean discarding good dresses?

You are to be congratulated on having a daughter who has sufficient initiative and resourcefulness to want to choose her own dresses. You have an excellent opportunity to help acquaint her with some of the basic principles that should underlie the selection of clothes, as well as to help her realize something of their cost.

It seems to me, therefore, that whenever possible, you should encourage her to select her own clothes, even though at times you may not agree with her choice. You cannot expect her judgment to be infallible and one way to learn is to make mistakes. She will not learn from her mistakes, however, if she is permitted to discard at will dresses that are practically new,

To give her as much freedom as possi ble in this regard does not mean that there will not be times when the deeision concerning clothes must be yours play fair with her-to encourage her growing independence. You will need to dresses cannot be discarded because of a whim or a sudden change of taste.

Teen Indecision?

My son is seventeen. He has just finished high school. For some time he has thought he would study medicine: therefore harmful. Now he is not so sure. He says he has no patience with "complaining women." What should my procedure as his mother be? Should I encourage him to go ahead and study medicine? Should I encourage him to take some time before making up his mind? Should I do nothing to influence him?

I wonder if your son is a tease. Some-

If you suspect this to be the case, fitfully about before going to sleep; (d) you may want readily to admit one of crying out in his sleep; and (e) a the weaknesses of your sex, but at the same time remind him that not all the

position to decide upon his lifework.

At what age should a normal child begin to attend movies? Is the average wild-west movie harmful to a child under six years?

It is difficult to answer your question because after all there is no such thing as a "normal" or an "average" child. Children differ considerably in their temperaments, emotional stability, and sensitivity to exciting events. A movie that may be harmful to one child may have no ill effect whatsoever upon another.

Nevertheless, there are certain general considerations:

1. In so far as possible, children under six should be kept from experiences

If you have a question about your child—from infancy through the teens—send it to Donald M. Maynard, 810 Broadway, Nashville 2, Tenness to be answered through a future

perhaps most of the time. But try to that unduly excite or overstimulate them. Some authorities in the field of child guidance feel that movies in parhelp her realize, of course, that good ticular, even those designed especially for children, are likely to provide this overstimulation.

Is it not true, however, may be discarded for awhile only to become an important part of a wardrobe later on? Is it not possible, also, to do a little "remodeling" of old dresses so as to make them meet present requiremant to make them meet present requiremant. movie, but hold their hands before their eyes or put their heads on the seats when certain episodes appear. For these the movie obviously is too exciting and

> I believe you would find that the average wild-west movie is altogether too exciting for a child under six years. He may not show much excitement at the movie itself, but the overstimulation may be reflected in his conduct at home. Symptoms of overstimulation may be

any of the following: (a) Manifestation of unusual fear how, I can almost see the mischievous about something that ordinarily doesn't frighten him; (b) a tendency to crycomplaining women." He wants to see

tendency to stammer or stutter. 2. It should be kept in mind, also, complaining is done by women and that, that children who attend movies fre-indeed, men seem to be more upset by quently not only are kept from more creative play activities but may develop Even though he may be teasing in an abnormal desire for excitement that part, it would seem that he is also gen.

3. Parents are going to face the probcine. Help him to see that he does not lem of movie attendance soon enough eed to make a final decision now. without precipitating the problem. It Whatever the final decision may be, he would seem wise, therefore, to postpone will want to go on to college. When he as long as possible the taking of their

Others wanted are radio technicians and repairmen, cable splicers, communications foremen and code clerks, machine shop supervisors, motor mechanics and property supply clerks.

"Pay is on the same scale as for the same kind of governmental positions in the United States, with 25 percent additional in Japan," Mrs. Ellis said. "There is a big difference, however, in that housing is free in some areas, and furnished at only nominal cost in other places. Medical and dental care is supplied on a simlar basis. With few exceptions, overseas Army installations offer the same kind of community services we have in this country."

Regulations concerning dependents vary with the area but full information may be obtained at the California State Em-

Religious Science Church to Hear Alexander Markey

"Savage Heaven" will be the topic of Alexander Markley's lecture at the Church of Religious Science at the Masonic Temple in Redondo Beach, on Wednes-

day, June 27th at 8 p.m.

Markley, a widely known lecturer, traveler, metaphysician. philosopher and psychologist, is an exponent of the timeless wisdom of the East.. He is the only living white man who the legendary Maori Polynesians of the South Seas accepted and inducted into the blood brotherhood of their chief tribe and re-named him REHUA, after their mythical God of Health and Good Cheer. During his four years among these strange people, as a native, on the shores of the "Sea of a Thousand Winds," and on the "Isle of Ghosts" these amazing people not only enlarged his philosophy beyond the limitations of the white man's horizon, but they revealed to him the secrets of their ancient Lemurian culture, their closely guarded esoteric mysteries, the secret of their astonishing mastery of nature's hidden forces and taught him the sacred laws of the life supreme.

The public is cordially invited to attend this lecture for which there is no charge.
