### Soup's On! Cheese Vegetable Chowder Today

WINTERY WEATHER is the time to have a pot of hearty homemade soup for the family. It sticks to the ribs and is satisfying when the weather is cold. Cream type soups are especially nutritious, and here's a speed-up method of preparation. Use economical nonfat dry milk and you won't need to make a roux, cooked butter and flour mixture, to thicken the soup. To illustrate this quick method we have a recipe for Cheese Vegetable Chowder, especially delicious for school day luncheons, for the youngsters on a cold day. But a word about nonfat dry milk first. It is milk with only the fat and water removed and it can be used for cooking, baking, drinking, with cereals—and it will even whip. Nonfat dry milk is an extremely valuable source of protein, calcium, riboflavin and lactose. It is a very economical food item, too, for a one-pound package, available at the grocer's, will make five quarts of nonfat milk at only about eight cents a quart.

And now for Cheese Vegetable Chowder:

**Cheese Vegetable Chowder**  
(Makes 6 servings)  
1/2 cup finely chopped onion  
1/2 cup finely chopped green pepper  
2 tablespoons butter, melted  
4 cups water  
1 cup Starlac (nonfat dry milk)  
1/4 lb. process American cheese food shredded  
3/4 cup cooked whole kernel corn  
3/4 cup diced, cooked carrots or turnips  
3/4 cup finely shredded cooked cabbage  
1 cup diced cooked potato  
1/2 teaspoon salt  
1/2 teaspoon pepper

Cook onion and green pepper in melted butter in small frying pan until tender and light golden brown. Pour lukewarm water into soup kettle. Sprinkle Starlac (nonfat dry milk) over surface; beat until just blended. Add shredded cheese, cooked onion-pepper mixture and the remaining ingredients. Cover kettle and heat to boiling over low heat, stirring often. Serve at once; if desired, garnish each serving with chopped parsley.
