The March 20th Perry P.T.A. 2:30 p.m. meeting promises to be one of great interest. The program will include school demonstrations by Mrs. Wagner's pupils and a musical interlude by the Girls Choir directed by Mrs. Doris Crosier, teacher.

Many skills of many people go into the big job of providing telephone service in the West today.

**FIVE BILLION CONVERSATIONS**

This huge number of telephone calls a year is the important responsibility of 73,000 men and women in the West.

Five billion conversations! By day and night, in cities and towns, across valleys and over mountains, the West's telephone lines are busy carrying the calls that in a year total more than twice the population of the earth! Some calls are routine, others may save a life, but each call is vital to capable telephone people everywhere as they work at the wide variety of telephone jobs needed to serve you and the nation well.

This telephone team, for instance, is pinpointing the location of a buried cable which needs repairs. The cable will be fixed quickly... and calls will flow again. Meanwhile, your long distance calls are re-routed to get them through with little or no delay. This is just part of the complex job of maintaining and expanding the West's vast telephone system—a job which now requires the skills of some 27,000 well-trained telephone men and 46,000 alert telephone women here in the West. Round the clock, they're on the job to keep America's telephone system the finest in the world... able to do its full share of the important task of keeping America strong.

**Your telephone is one of today's best bargains**

For every telephone employee, we have about \$20,000 invested in telephone equipment. Naturally, both must work together to bring you good telephone service. And it's reassuring to know that despite our sharply-increased costs of both wages and materials, we've been able to keep your telephone one of today's best bargains.
