

### Gibson Speaks At Civic Meet

Councilman John S. Gibson will be the guest speaker at a meeting of the Plaza del Amo Association next Tuesday night at 8 p.m. in the Normandale Recreation Hall.

Gibson will speak on problems of the Shoestring Strip, according to Mrs. W. Phillips, publicity chairman for the club.

Cecil Motett, president of the association, has extended an open invitation to the meeting.

### Browne Hits

(Continued from Page One) after the same or similar changes had been made.

Both Blount and Spelman, despite the precedent, still refused to OK the tract maps.

Spelman commented that the City Council's "history with Mr. Browne hasn't been very satisfactory." It was indicated that he referred to a dispute about who, the city or Browne should provide water for one of Browne's recently completed subdivisions. Browne was compelled to install a private water system, at his expense, for this tract.

On the motion of Councilman Nick Draie another 13-house tract map that Browne had pending was OKed. The two maps that were hotly disputed during the three-and-one-half hour council meet were referred to City Attorney James Hall for further study.

Further business of the Council included a hearing on the proposed Seaside Ranches Sewer District. Protests were heard, but because the majority of the residents of that area were reportedly in favor of the sewer, the Council resolved to proceed with construction.

Council members will meet with the Recreation Dept. next Tuesday to discuss a program for streamlining that city agency. Recreation Director Frank Carpenter will propose several changes in the current set-up, it was indicated.

Heated debate followed a motion by Draie that the Hollywood Riviera Sportsman's Club be granted a license to sell fireworks for four days in July. In the past only veteran's groups have been given the privilege. In squelching the opposition, Draie pointed out that the existing city ordinance covering the issuance of such licenses allows any civic, charitable, or religious organization to sell pyrotechnics. The Hollywood Riviera group, he pointed out, falls into this category. The permit was granted on a split vote, Spelman dissenting.
