How to make good telephone service even better....

it's easy to be a good telephone neighbor, too

If yours is a party-line, it's easy to be a neighborly telephone user. Just keep these simple points in mind when you make telephone calls: When you have a series of calls to make, allow a few minutes between them

- Make sure the line is clear before you call
- Replace the receiver properly in its cradle after calling. These suggestions will mean still better party-line service for you, too. For if you make them a habit, you'll find that they give people a better chance to call you.

emergency calls may arise while you are using your party-line. If a telephone neighbor breaks in and explains the emergency, it's always thoughtful to hang up and complete your call later.
