Revised Dope Laws Urged by Moose Club

A strenuous campaign to revise the penal codes concerning the possession and illegal sale of narcotics, giving the law enforcement agencies and judicial bodies a much stronger voice in the "war" against the vile drug traffic, was announced today by a spokesman for the Torrance Lodge of the Loyal Order of Moose.

Judge Hampered

"For too long a period," according to the Moose spokesman, "the users and sellers of illegal narcotics have been treated as only petty criminals instead of potential murderers. The police, judges and juries have been seriously hampered by a weak penal code," continued the fraternity representative, "and its about time that these law agencies had a strong weapon with which to fight these would-be-murderers and corruptors of our youth."

Resolution Passed Resolutions to revise the penal code as effecting the apprehension and trial of illegal drug users, passage and sellers will be introduced at the next meeting of the Torrance Moose Lodge, and will be carried by the local through to the national organization. Marvin McArthur, governor of Torrance lodge, expressed "a sincere hope that other fraternal and service organizations join in this war against the sale of dope by introducing similar resolutions in their groups."

With more reserve strength and a little more height than in previous years, this year's El Camino cagers should have one of their best seasons, Coach Bailey said.

Juicier meats - Less shrinkage WHEN YOU ROAST WITH GAS!

WHEN you roast meats uncovered in the oven of a modern automatic gas range, they are really roasted... not "stewed." Natural juices and flavor are sealed inside a deliciously browned crust—the happy result of steady oven heat and constant air circulation.

The automatic heat control guards the temperature you select during every moment of roasting. And be-

cause gas is so controllable, you roast at an even low temperature, which means less shrinkage and more meat for your family.

Whether it's roasting or baking, frying or broiling... you can have just the heat you need with gas.

See the new automatic gas ranges today at any dealer or your Gas Company. The model you select will cost less to buy and less to operate.

NO KITCHEN SMOKE SCREEN when you broil with gas. You must have the clean blue gas flame to consume smoke and spatter... to give delicious char-type flavor to meats.

INSTANT VISIBLE HEAT and an unlimited choice of cooking temperatures are yours with gas. When you turn gas off... it's off! No lingering heat to cause boil-overs or scorching.
