

Soldiers to Have Flush Toilet at Korean Front

From Inchon, Korea comes proof that even in the rigors of war the American soldier is concerned with the basic comforts and conveniences of normal life.

Recently a group of soldiers salvaged a toilet bowl from a bombed-out building in Inchon. Discovering from the brand name that the bowl had been manufactured by American Radiator & Standard Sanitary Corporation, the soldiers asked the company to send them the tank and other material necessary for a complete installation.

The firm is rushing an entire new unit to the soldiers in hope that they can realize their ambition to have the first flush toilet in Inchon in operation by Thanksgiving day.

'Not Tomorrow, But Today' is Topic of Sermon

"Behold what manner of love the Father hath bestowed upon us, that we should be called the sons of God; therefore the world knoweth us not because it knew Him not. Behold, now are we the sons of God, and it doth not yet appear what we shall be; but we know that when he shall appear, we shall be like Him, for we shall see Him as He is. I John 3:1-2. Here John is telling us that NOW we are the sons of God. Not in the hereafter, but in the NOW."

Sunday services of the Church of Religious Science are held at the Masonic Temple, Ruby and Catalina Streets in Redondo beginning at 10:45 with a fifteen-minute period of meditation and music by MacDonald Scott at the organ. Mr. Donald Oregon will be the soloist this week, accompanied by Mr. Scott.

Local Merchant First to Offer Decorator Aid

Eaton's Paint Store, 24650 Narbonne Ave., is among the first retailers to offer its customers a unique new decorating aid, the "Dutch Boy" Color Gallery, which has won acclaim throughout the West.

Vern Eaton, owner of Eaton's Paint Store, stated today that the Color Gallery, recently unveiled in his store, allows painters and home-owners to examine and compare generous-sized samples of actual paint before making purchases, thus simplifying the difficult task of selecting effective color combinations for the home. Over 100 complete color schemes, chosen by foremost color experts, are a feature of the service.

The Color Gallery, developed by National Lead Company, pioneers in the paint manufacturing field, contain "take-home" samples of "Dutch Boy" Paints in an extremely wide range of colors which, according to Eaton, were chosen by recognized decorating authorities and are keyed to color preference of home-owners in the western United States. All colors are offered in flat, semi-gloss and gloss finishes.

Eaton stated that response to the device by Lomita and Torrance property owners and painters confirms reports of its enthusiastic acceptance wherever it has been shown. Eaton's Paint
