Sanders Named Assistant Head Of Torrance GP

Paul Sanders has been named assistant manager of General Petroleum's Torrance refinery, according to A. E. Thompson, the refinery's manager.

In addition, Thompson revealed that E. G. Surber has been advanced to the post of superintendent of the plant.

Sanders, a veteran of 33 years with General Petroleum, has been superintendent of the refinery since 1945. In February, 1929, Sanders and 33 men put the then tiny refinery "on stream" for the first time. Since 1929 the Torrance installation has grown into

one of the largest petroleum refineries in the West.

Surber has been with General Petroleum since 1923. He was employed at the company's Vernon manufacturing plant until 1941, when he became a shift foreman at Torrance. Since January, 1951, he has been foreman of the refinery's tank farm.
