This veteran public telephone installation at the corner of Alvarado and Franklin in Monterey, California, has been busy serving the public since 1930.

### MEET AN OLD FRIEND ON "MAIN STREET"

For more than 70 years, public telephones have been on the job in the West to bring you service when you need it

One of the oldest landmarks along the "Main Streets" of the West is the familiar blue and white sign of the public telephone. And it doesn't just happen that you're never very far from one of these signs when you want to make a call. We now have some 92,000 public telephones at work in the hundreds of communities where we operate locally here in the West—and they've been carefully placed to make sure a telephone is always readily available to you away from your home or place of business.

You've just arrived in town—and, of course, you depend on the telephone to help you contact relatives and friends. That's why we've put public telephones in all bus, rail and air terminals—as well as drug stores, filling stations, hotel and theater lobbies and a host of other handy places. From any of these telephones you can be linked—swiftly and efficiently—with any telephone, anywhere. And we're installing even more public telephones every day.

Your telephone is one of today's best bargains

Making sure good telephone service is available when and where it is needed is just one more way we work to make your telephone ever more useful and valuable to you.
