

'Put Best Self Forward,' Says Rev. E. Barnum

In discussing his Sunday topic, "Put Your Best Self Forward," Rev. Barnum said, "We must first learn to know our best attributes. Then set about externalizing them. The self we put forward is the outer manifestation of the inner consciousness. Jesus said, "You will know them by their fruits." If we are not putting our best forward, let us change our mental attitudes, and we do this by changing our thought pattern. It takes perseverance in the beginning, but after we learn to know our self, pride in workmanship will not allow us to put forward less than our Best Self."

divide your electric bill by sixty...

IF YOU GIVE a moment's thought to the things electricity does for you in a full twenty-four hour day, you'll see quickly that you get a lot of service for just a few pennies. But you can find out how little that amount actually is by dividing your last Edison bill — or your next one — by sixty. Each Edison bill covers two months' service. This simple little exercise in arithmetic demonstrates clearly that electricity is today's biggest bargain.
