## Conserve

-to Webster meant

"to keep in a sound or safe state"

OIL ... at your service

to an Oil Man means...

-To treasure the natural resource-on. Through self-regulated drilling, through continual improvements in refining so that more products can be produced from the same barrel of crude, and through always upgrading distribution, you get much more for your petroleum dollar today than you did 25 years ago.

-To maintain the unbroken record of low-cost, high quality products delivered to our country and the free world in time of peril. Yet to safeguard the fuel that today supplies 62 per cent of America's industrial power.

-To preserve the right of individual initiative by fostering rigorous, aggressive competition that means a constant supply of gasoline and oil, nearby, at low cost for you.

-To assure the well-being of our people through exhaustive research that each year turns out new products for you-from cosmetics to plastics ... from anesthetics to lingerie.

These are reasons why you benefit daily from the friendly, competent service of your Mobilgas Dealer, to whom we are proud to supply top quality lubricating oils, greases, fuels, and countless special products that keep your car and your business running efficiently and economically.
