Forged Check

A forged check made out "cash" and drawn on the Union Bank and Trust Company of Los Angeles was turned over to Detective Sgt. Percy Bennett this week. The check is signed William R. Moss, 1305 Arlington Way and is in the amount of \$40. It is dated 12-23-53. Any one having other such checks is asked to contact Sgt. Bennett of the Torrance police force.

SOLDIER MOLESTS BOY, 13

A felony complaint has been brought against Cpl. Leroy Converse, 30, who was arrested on Hollywood Parkway on the Palos Verdes line Monday morning at 1 a.m. for molesting a 13-year-old boy.

The soldier, who is about to

be discharged from Ft. MacArthur, had befriended the boy at a Redondo Beach skating rink. The parents had no objections to the soldier's visiting their home on several occasions while they were both working, according to Detective Capt. Ernie Ashton.

Converse admitted molesting the boy every time, and that he has a previous record on similar counts.

HOWEVER THINGS may seem, no evil thing is success, and no good thing is failure.—Samuel Longfellow.

FLYING SAUCERS

(Continued from Page 1)

of them haven't been published yet. Perhaps they will be some day."

Here was conclusive evidence that Adamski was the leader of a religious cult. The woman believed in him with an ardent faith bordering on fanaticism, so typical of the cult-followers.

Doubts

I left the Palomar Gardens Cafe with strong doubts regarding the flying saucer testimony offered by George Adamski. This did not detract from my belief that "unidentified flying objects" are a fact and that there may be life on other planets.

There is definitely some significant and sensational explanation for the objects which have been observed in the skies for the last six years and which the Air Force has labeled UFO's (unidentified flying objects) either for security reasons, for lack of an explanation of

natural phenomena, or because these objects truly come from outer space.

Conclusion

I cannot accept George Adamski with the same devotion with which he is worshipped by his followers.

I hold no contempt for him though. I feel the same basic respect for and curiosity about him that I do for people generally.

I do feel, however, that with George Adamski we simply have another religious cult of which there are many in Southern California.

There are many individuals who cannot accept its "teachings." There are a few who can and want to. The Adamski-cult satisfies the needs of certain people. They seem to find happiness and meaning in life through the way shown them by Adamski.

That is the most that can be said for George Adamski of Palomar.

GREAT LAKES

(Continued from Page 1)

removed from approximately 2 per cent of the acreage purchased and only a small fraction of that percentage will be operated as a mine at any one time. The perimeter of the area will be in the hands of an experienced landscape artist.

No Apprehensions

"The operation itself will be so conducted as to relieve our neighbors and friends of any misapprehension which some of them have expressed as to the potential nuisance or health hazard arising from this operation.

"Indeed, if this were not true, it would be substantially detrimental to the making available to us of the remaining acreage, acreage to be used for the building of homes for a substantial number of families in what is probably the most attractive smog-free residential area on the Pacific coast."

Leroy A. Garrett, counsel for Great Lakes Carbon Corporation, who handled the Great Lakes' presentation before the Board of Supervisors, expressed himself in this manner:

"Never in history has any matter before the Board of Supervisors of Los Angeles county been given a more thorough airing. Our proposals

ARRET

Arret is a term applied in modern times to the judgments and decisions of the courts and tribunals of France.

were made in good faith and they will be conducted in the same good faith enunciated.

Waiting Period

"At the conclusion of the 6-months waiting period, prevalent under the law, a tremendous project will be born within the framework of a master plan. It is my earnest belief that the people of Southern California will witness the birth of a planned community second to none in the nation."

GANG

(Continued from Page 1)

avenue near O'Farrell street by a prowler car, and the second juvenile was picked up after emerging from a San Pedro theater.

All three were booked on suspicion of assault with a deadly weapon, based on the report by Olloque that they had wielded a wrench during the attack. The fourth member of the gang, an adult, is still being sought by police.

Ollado, according to police reports, admitted the attack and said that he and the other three had followed Olloque to the Twenty-fourth street address. He said that he had done so because one of the juveniles had recognized the Torrance youth as one of an opposing gang with which they had engaged in a brawl at a Torrance dance several months ago.

Different Story

Ollado said that Olloque was getting the better of the juvenile who had first approached the Olloque car and that he and the other two went to their friend's assistance.

"I hit him and kicked him (Olloque), but I don't know anything about any weapon being used. Also it was Olloque who came out of his car swinging and started the fight," Ollado said.

NO MAN can answer for his courage who has never been in danger.—Rochefoucauld.

**LOOK — YOUR
OLD CLOTHES LINE****IS WORTH****ON A NEW****AUTOMATIC GAS CLOTHES DRYER
IF YOU BUY BEFORE FEBRUARY 1st**

Rope, wire, or plastic cord, whichever it is, take your old clothesline to your dealer. Until February 1st, he'll give you \$25 on the purchase of a new automatic gas clothes dryer to take all the drudgery out of clothes drying.

No more clotheslines! You simply toss in rinsed clothes and set the control. Minutes later you take out a soft, fluffy, sweet-smelling wash. You can wash any time, too — day or night, rain or shine.

Remember the "Big 3"—an Automatic Gas Clothes Dryer...

- 1 Dries clothes faster than any other fuel.
- 2 Costs less to operate—less than 2¢ a dryer-full.
- 3 Costs less installed.
