Sno-Cats stalk trouble in the mountains. High in the snow country of the Pacific West, winter blizzards are fierce and frequent. Here motorized Sno-Cats help telephone crews roll out fast to stop trouble before it can interrupt service. The powerful "Cats" carry 6 to 8 men comfortably, cruise over the snow and ice at speeds up to 25 miles an hour. Using these vehicles instead of skis or snowshoes, our mountain crews patrol vast areas faster. They can spot such potential troublemakers as leaning poles, broken branches, wires buried in towering snow drifts. By saving valuable time and helping prevent trouble, the Sno-Cat helps us cut costs, hold down the price of telephone service to you. Pacific Telephone works to make your telephone a bigger value every day.
