Everyday you get dollars worth of pleasure for pennies worth of electricity!

Electricity brings you entertainment from everywhere, right in your home. It provides perfect light to read by, anywhere and any time, telephone conversations with friends, and countless other things for you to enjoy every day. You take these pleasures for granted, but a visitor to your house from the days before electricity would find them hard to believe. He would imagine them to be possible only at tremendous cost, if at all.

Your visitor would be amazed to know that you pay just a few pennies a day for all the electricity used in your home.

Luxury costs so little, electrically!
