

DEAR EDITOR . . .

Editor

Torrance Press:
After reading the article in the Torrance Press as of February 25 regarding the closing and dismantling of the G.E. jet testing station due to general complaints by Torrance residents, people in Lomita are asking themselves why it should have required five long years of insistent and urgent appeals in order to gain only temporary relief from the many low flying and roaring planes over their roof-tops operating out of the Torrance air field?

Our many appeals to local officials for relief on this question was only side-tracked, ignored and snubbed, finally winding up in the Governor's office. May we ask, where were local offi-

cials when and while Lomitanians were having their homes and contents bombarded and burned to the ground, their lives in almost daily jeopardy, their business' placed at a weekly loss and the right and pleasure of using their yards for relaxation robbed from under them?

When seeking relief from these careless, inconsiderate and lawless pilots skimming our roof-tops, we were dogmatically informed by one of our aeronautics officials that we had reached the height of stupidity, that we were obstructing and impeding progress and had failed to pass through or beyond the horse and buggy days of yesterday.

A large majority of people here in Lomita may in the eyes

of certain egotistical, bureaucratic public officials be looked upon, or classed as stupid, but public opinion at large always has, and still rules in favor of the preservation of human life, people's peace of mind and their homes in which they have their hearts and life's earnings entwined.

People of Lomita wish to extend their congratulatory respects to the people of Torrance for their quick and positive action on the solution of their jet-noise problem. We, in Lomita have been in the ring pitching for five long years seeking a solution to our destructive plane nuisance and problem, and we are still pitching and hoping.

To Assemblyman Vincent Thomas we wish to publicly and sincerely express our deep appreciation and gratitude for his loyal and helpful service in aiding us to endeavor liberating ourselves from this plane haz-

ard and nuisance. Also, to Attorney Fenton, who presided over the Torrance meeting of the plane problem goes our thanks and appreciation for conducting an equitable and impartial meeting, even though it failed along with the many other previous such meetings to gain us any lasting or permanent results.

Malcolm Cameron

PFC. ROBERT H. BECK (right) of Torrance, is congratulated by Colonel Niels I. Poulsen, Camp Schimmelpennig commander, after being named Soldier of the Month for the 50th Signal Battalion in Japan.
