In addition, special conferences were held with members of the State Department and the Department of Agriculture."

**POST FILLED TEMPORARILY**  
John V. Russell has been appointed temporary building superintendent for the city of Torrance until a civil service examination for that post is held, it was announced this week by City Manager George Stevens. Russell comes highly recommended by William Fox, L. A. county engineer, having had years of experience with the county. Stevens stated that Russell is here only to help out in the interim. He will not take the civil service examination when that is given within the next six weeks or two months. Russell's work during this time will consist chiefly of teaching inspectors. The county has offered to lend personnel to the city of Torrance to help with the reorganization and training of the building department when a permanent superintendent is appointed.
