NEW DIRECTORY INTRODUCED — Pacific Telephone directory clerk Glenda Ellis displays new southern section edition of telephone book. October 1954 issue has bright green cover and is forerunner of multi-colored directories to serve Los Angeles extended area.

## NEW COLORED PHONE BOOK INTRODUCED

A new idea in telephone directories is being unveiled this week. It's the October 1954 edition of the southern section book.

It has a bright green cover to distinguish it from the four other Los Angeles extended area books. They, too, will have new colored covers when they go to press . . . orange (western), blue (north-eastern) and brown (north-western). The central section will remain grey.

This marks the first time the multi-colored directories have been used in the United States. Initial delivery of the new one-year book in San Pedro, Wilmington, Harbor City, Lomita and Torrance will total 53,000. About 300,000 alphabetical listings are shown on 1,192 pages . . . 96 more than in the 1953 book.

A notice on the front cover announces the effective date . . . October 3 . . . for new El Segundo exchange EAsgate prefix telephone numbers. Subscribers are urged to use currently listed numbers prior to that date.

Manager Dick Pyle again reminded subscribers to check their old books for valuables before turning them in to the deliveryman.
