Let's Support the Pool

Editor  
Torrance Press

In the past, many Torrance organizations and groups have supported former swimming pool projects. It is hoped that these groups will again actively support the present swimming pool bond issue. In fact, every organization in Torrance should include a discussion of the bond issue on its agenda, and, if possible, go on record as favoring the pool.

If the organization should then desire to do more, it would seem appropriate that it appoint one of its members as a delegate to meet with the Torrance Recreation Commission and help in promoting the pool.

The project cannot succeed without help from every interested group in town. It is a case of every interested Torrance Citizen helping himself to get a swimming pool in Torrance.

We, who are interested in the swimming pool project must remember not to overestimate the amount of public opinion in favor of the pool. We may find, as we have in the past, that the issue has been voted down due to lack of stressing its importance or fully informing the voters.

For example, all those in favor of the pool should be able to answer the question, "Why should I vote to raise my taxes?" The answer is simple and forceful, "Because the benefits derived from a swimming pool are far greater than the cost. These benefits are courage, assurance, social adjustment, guidance, a physical development that cannot be figured on a dollar and cents basis." Continue to sell benefits in answer to objections.

Remember, if you want the pool bad enough, you should be willing to work to get it. Don't leave it up to "George."

Sincerely yours,  
(Signed)  
HARRY VANBELLEHEM  
Director of Recreation
