## CONSTIPATION FAST PROVEN METHOD RELIEF IN 20 MINUTES

Learn the true facts of disease. Many people constantly complain of stomach disorders, such as gas bloating, burning of the stomach, abdominal cramps, nausea and vomiting, when in reality, the lower part of the bowels is to blame. It is a well known fact that most distress in the abdominal region is self diagnosed as stomach trouble. This misconception is a natural one. Constipation results in the formation of large quantities of poisons that gain entrance into all parts of the body by means of the blood stream and lymph channels. The effect is the same as it would be if you were to swallow a dose of poison every day. The first and last thought in the mind of most people when they become constipated is to take a physic, yet no physic was ever made that would cure constipation. Continued use of physics leads to definite ailments of the colon itself. Stop fooling yourself. Know the true facts of disease. Life or Death can be due to neglect of your physical condition.

## HEART GALL BLADDER

Over half of the deaths in the country are due to Heart and Blood Vascular disorders

The Gall Bladder is of interest clinically only when it becomes infected or otherwise injured. Under such circumstances it no longer concentrates bile in the normal manner but pours out a fluid which differs greatly in composition from the normal Bile; or it harbors a stone which causes trouble or perhaps when it is the site of a malignant growth. Fully one half of the patients who come to me believing they have stomach Ulcer or gastritis are really affected with some form of Gall Bladder disorder.
