

Baptists Set Billy Graham Documentary

"Battleground Europe," the newest Billy Graham documentary film, will be shown at the First Baptist church, 2118 Carson street, Torrance, tomorrow night, March 2, at 7:30 p.m. The film is open to the public.

The production was filmed entirely in Europe and includes scenes of the largest crowd since Hitler's day in the Hitler Stadium in Nuremberg, where the cross replaces the "swastika."

There is complete picture coverage of the Paris crusade drawing converts by the hundreds hurrying to the platform in response to the invitation.

Billy Graham is shown preaching in five different languages through an interpreter at meetings in Norway, Hol-

land, Germany, France and England.

Also shown are the crowds at Hampden Park in Glasgow and Wembley Stadium in London (100,000 at Hampden Park and the average attendance at Wembley for one week was 65,000 persons . . . with rain every night except one), church officials' report.

The documentary was produced by Jerry Beavan as executive producer and director with Great Commission Films of Hollywood, Dick Ross, president, assisting.

DO YOU NEED extra cash? Silly question, but did you ever think of selling your old stove or the children's discarded bicycle? Try the Torrance Press classified ads and get that extra cash through the results you'll receive.

DID YOU KNOW that the classified ads of the Torrance Press are one of the most valuable parts of the paper? Whether you want to sell, trade, buy, or even want a baby sitter for evening, classified is there for you. Read and advertise, won't you? You won't be sorry!

TO HELP YOU in placing your classified ads with The Press, remember that the deadline is 5 p.m. the Tuesday before the publication of the paper.

To place your ad, call Fairfax 8-2345 or write the TORRANCE PRESS, 1406 Cravens.

CONSTIPATION

FAST PROVEN METHOD RELIEF IN 20 MINUTES

Learn the true facts of disease. Many people constantly complain of stomach disorders such as gas, bloating, burning of the stomach, etc., when in reality, the lower part of the stomach, abdominal cramps, etc., known fact that most distress in the abdominal region is self diagnosed as stomach trouble. This misconception is a natural poison that gain entrance into the formation of large quantities of bowel is blame. It is a well all parts of the body by means of the blood stream and lymph channels. The effect is the same as it would be if you were to swallow a dose of poison every day. The first thing thought in the mind of most people when they become constipated is to take a physic, yet no physic was ever made that would cure constipation. Continued use of physics leads to definite ailments of the colon itself. Stop fooling yourself. Know the true facts of disease. Life or Death can be due to neglect of your physical condition.

HEART

Over half of the deaths in the country are due to Heart and Blood Vascular disorders

GALL BLADDER

The Gall Bladder is of interest clinically only when it becomes infected or otherwise injured. Under such circumstances it no longer concentrates bile in the normal manner but pours out a fluid which differs greatly in composition from the normal bile; or it harbors a stone which causes trouble or perhaps when it is the site of a malignant growth.

Fully one half of the patients who come to me believing they have stomach Ulcer or gastritis are really affected with some form of Gall Bladder disorder.

Have you thought of a Career in Steel?

Great needs create great opportunities.

If you have sons of your own, if you have a voice in any educational activity, if you are active in youth movements in schools, church or community . . .

Then the news of the steel companies' multi-billion dollar expansion plans is big news, good news for you—and it will be for years.

It's good news for any boy old enough to be thinking about his future. It's good news for anyone to whom a boy looks for guidance.

Our young people in school today will supply tomorrow the original thinking that all our growing industries will be needing.

The soaring population promises to be near 200 million by 1975.

In addition, science is entering the age of nuclear energy with its promise of abundance.

Rising standards of living make it necessary to undertake the construction of 15 million tons of new steelmaking capacity during the next three years alone.

All this means more and more demand for construction, machines, products—a vast expansion prospect for industry. And, steel is vital to the growth of all other industries.

Steel jobs are good jobs, all along the line. They are among the safest in all industry.

Wage levels in the industry place steelworkers among the top 10 percent of all industrial workers in the country. In addition, steel workers have good pensions, insurance and other benefits.

The steelworker stands high in his community.

Generation after generation, father, son and grandson have gone into steel. Opportunities for advancement are great in a rapidly growing industry.

Your boy will be proud to be associated with the men and women in such an industry. Your son has a future in steel, and so has America.

America and Steel Must Grow Together
