

Improvements Completed at El Nido Park

Supervisor Kenneth Hahn announced this week that \$28,000 in improvements at El Nido park have now been completed and officially accepted by the County.

The improvements include the construction of comfort stations, a service yard, "skinning" of a ball diamond, and grading to specifications of a large area of the park for future improvement.

This work is the latest in a series of improvements which Supervisor Hahn has obtained for El Nido park. Although land for the park was purchased by the County in 1950, no major improvements had been made there until last year when Supervisor Hahn had a new community building constructed and a number of items of playground equipment installed.

He explained that it is his policy to assist in providing adequate recreational facilities for the people.
